DOING BUSINESS WITH CENTROTHERM ECO SYSTEMS

How to Order

Centrotherm Eco Systems accepts orders as follows.

Phone: 877.344.3432 • Fax: 518.618.3166

Email: orders@centrotherm.us.com

Payment Terms

New accounts must submit a completed credit application. Payments may be made by cash, company check or ACH. A resale certificate must be submitted or taxes will be added to your invoice where applicable. Terms are Net 30 Days (unless otherwise specified) with approved credit.

Pricing

For ease of reference, Centrotherm provides list pricing for individual item (each), carton and pallet quantities when applicable.

Minimum Order Requirement: Centrotherm does not have a minimum order quantity nor mandate the purchase of full cartons. In order to cover the costs associated with breaking cartons, items available in carton quantity but purchased in less than carton quantities are subject to a surcharge. This surcharge is included in the published unit price.

Expedited Orders: Ship dates will be provided with your order confirmation within 1 business day from receipt of order. If an earlier delivery date is required, contact your sales representative for terms and availability.

Shipping

Common carrier shipments are F.O.B. Centrotherm Eco Systems. Inspect all goods upon receipt and note any damage on the shipper's "Bill of Lading." Recipient must report any shipping discrepancies to Centrotherm Eco Systems within 5 business days of receipt of shipment. If product is lost or damaged during transit, customer must file claim with carrier.

Small Packages: Orders shipped via a small package service such as UPS or FEDEX are subject to a \$5 per package handling charge.

Freight Programs

Many customers have arrangements with their own freight carriers and have their own rate agreements. Whenever possible, Centrotherm will ship "collect" or third party bill to your account. All other orders are prepaid and billed.

Drop Shipments: All drop shipments are billed at actual freight plus a \$6.00 handling charge. No COD drop shipments. Ask about fixed and free freight levels.

Delinquent Accounts

Overdue accounts are subject to a 1 ½% monthly service charge. Past due accounts will be subject to a credit hold. Returned checks are subject to a \$40 service charge each time they are presented. Bad checks and unsatisfied accounts will be prosecuted to the full extent of the law.

Returns

If you need to return products, contact our customer support team for a Return Material Authorization (RMA). No returns will be accepted and no credit will be issued without an RMA number. The RMA number must be clearly noted on the bill of materials or affixed to the packaging. RMA numbers may only be issued to invoices that are 12 months old or less. All returns must be in their original carton and in resalable, like new condition. Returns are subject to a 30% restocking fee. Custom orders or product made to specification may not be returned.

The InnoFlue® Warranty

Centrotherm Eco Systems, LLC (CES) guarantees that the **InnoFlue® Special Gas Vent System** is free of defects in material, manufacturer's workmanship and title. This is a limited warranty subject to the following time periods and conditions.

Warranty Period: The warranty period is ten (10) years from the date of installation and when used for venting AGA listed Category II, III or IV gas heating equipment or water heaters in residential applications.

Conditions: The **InnoFlue®** warranty is subject to the following conditions: 1) the vent system is installed according to CES's written procedures; 2) the use of the vent system is limited to those appliances for which it is intended; 3) the vent system is inspected and maintained annually, beginning one year after the date of installation and continuing throughout the warranty period.

If the **InnoFlue® Special Gas Vent System** does not meet the warranties specified above, assuming normal and proper installation, use and maintenance, the buyer shall promptly notify CES in writing. CES shall thereupon correct any defect at its expense by replacing any defective or damaged parts of the system supplied under this contract. This obligation, however, is limited to the supply of replacement parts and does not include any responsibility or obligation with respect to the shipment, removal or installation of the replaced system or parts. The warranty period for replacement shall run from the date of the original installation of the original system.

Limitation of Liability: The following warranties are exclusive and in lieu of all other warranties, whether written, oral, implied or statutory. CES MAKES NO OTHER EXPRESS, IMPLIED OR STATUTORY WARRANTIES TO THE BUYER AND EXPRESSEDLY DISCLAIMS ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

The foregoing shall constitute the only remedies to the buyer for claims based on a defect in, or failure of the system or its components, whether said claims are designated as arising in contract, warranty, tort (including negligence), strict liability, indemnity, or otherwise. Upon the expiration of the warranty period, all such liability shall terminate. LIABILITY FOR SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES ARE EXPRESSLY EXCLUDED. CES does not warrant the system or its components against normal wear and tear due to operation or environment.

Centrotherm Systemtechnik GmbH
Brilon, Germany

About Centrotherm

For over 20 years, the Ubbink- Centrotherm group of companies has manufactured the most comprehensive line of polypropylene flue gas systems in the industry including Single Wall, Flexible and Concentric Vent solutions. In addition to our extensive range of standard vent products, Centrotherm is a full service manufacturer of appliance components for original equipment manufacturers. As the industry leader, Centrotherm is experienced in providing design services, prototyping, testing, and logistics management to its diverse sales channels.

Team up any high efficiency gas or oil fired appliance with InnoFlue®, the superior performing, environmentally sustainable vent system with an established and solid track record of nearly two decades of field service.

Centrotherm Eco Systems is part of Centrotec Group, a publicly traded diversified manufacturer of sustainable industrial products.
