

**TOGETHER FOR A
SAFE FUTURE**

Vote Labour Party

8. september

Safety for you.

For you who are awaiting healthcare. For you wondering about next winter's energy bills. For you who wants your children to learn more, and spent less time on screens. For you who are feeling unsettled by global events.

If we win the election, we will:

- Introduce a “Norgespris” electricity scheme with fixed price plans for consumers – for lower, fairer and more predictable bills
- Cut waiting times in our hospitals – and ensure more staff are working in elderly care
- Launch a major literacy drive for children and young people – with more books in schools and a minimum age of 15 for using social media
- Help families improve their finances – and provide stability and predictability for businesses
- Strengthen our defence and civil preparedness – to safeguard our freedom in uncertain times
