

ihelp+3G™

Experience The Difference™

The iHelp+ 3G™ mPERS (mobile personal emergency response system, or mobile medical alarm) is a reliable, easy-to-use medical alarm device with superior features and functions including:

Features & Functions

Lightweight - 1.5 ounces - comfortable to carry or wear.

Durable - Shatter-resistant with rugged construction.

Small In Size - 2.5" x 1.8" x .67" - compact yet powerful.

Loud - Crystal clear audio quality - No need to hold to the ear or mouth to listen or speak.

One-Touch Operation and Braille Button - Press the button 2 seconds and the call is placed. Anti-cancel prevents cancelling the call if the button is pressed again. 'Help' in braille is written on the button as well for extra protection.

Waterproof - Wear it in the bath or shower where most accidents occur.

3G Nationwide Coverage - Take it wherever you go.

Voice Prompts - Lets you know the status of your call. Ex. Your emergency call is now being dialed, please stand by.

Direct GPS Location - Sends your position directly to the monitoring center and/or a loved one.

Fall Detection - Notifies the monitoring center/loved ones if you fall.

Geo-Fencing - Notifies operator/friends/family if you are near and/or step out of your pre-programmed 'safe zone'.

Tracking - Ability to locate and ring the unit/user on demand.

Battery Status Indicator/Fully Supervised Battery

-Visual and audio indicator of battery status. Battery indicator lights (and cellular strength indicator light) surround the call button and will let you know when the battery or cellular signal strength is low. The pendant will also announce that the battery is low, and the unit will notify the monitoring center as well. The monitoring center will then report the low battery status back to you.

Protected Phone Number - Only the monitoring center can call you on your protected phone number, and this will ring your iHelp+. This will help to locate your pendant in the event of misplacement.

Wearable Remote Button - (comes with enhanced kit). Small wearable button that communicates with the smart charger, so there's no need to wear the pendant.

Special-Version Smart Charger/Docking Station - (comes with enhanced kit). Speak and listen to the operator directly through the smart charger/docking station when the remote button is pressed.

Complete Accessories - Includes car charging adaptor, power cable, breakaway neck lanyard, wrist strap, and holster.

Warranty - One (1) year from purchase.
