INSTALLATION

Protective Earth Terminals (PET) are located on the bottom frame of the enclosure. These terminals are marked with the ⚡ symbol. Enclosure accessory parts contain or are provided with bonding points for connection to the frame / PET. Protective earth and bonding connections shall be in accordance with Article 250 of the National Electric Code. When removing any bonded accessory for servicing the enclosure, make sure to disconnect the bonding terminal from the accessory. NOTE: The bonding terminal MUST be reconnected to the accessory when the part is replaced after servicing.

NOTE: The main protective earth conductor needs to be the first terminal placed on the PET and this terminal needs to be secured on its own with a nut. **(FIGURE A)**
