Vaddio RoboTRAK Certification Training Videos
Course Details

Course Description:
The RoboTRAK is Vaddio's 4th generation automated presenter tracking system; a powerful solution that includes the RoboTRAK IR tracking camera and a single-piece lanyard worn by the presenter. This advanced IR technology system requires certification to make sure the cameras are installed in an environment where they will work properly; our goal is to give you the keys to a successful RoboTRAK installation in this online video.

Learning Objectives:
At the end of the video chapters, you will be able to….

- Understand what is needed to sell, design, install and program this automated tracking system
- Understand specific room design for certain environments, lighting and system location and integration options
- Install the RoboTRAK system successfully
- Identify the correct steps to tune the system to fit the environment it will be installed
- Successfully know how to use the system once it's tuned and installed, end-user orientation steps and processes

Primary Target Audience:
- Dealers/Integrators
- Consultants
- End-Users

Certification Quiz:
Once you register for this course: add in link to registration page you will be sent an email that includes a link to the training videos as well as to the quiz. The quiz must be completed successfully to purchase the RoboTRAK system. Once the quiz is completed with a passing score of 80% or higher you will be given a certificate with the 0.5 RU credits as well as confirmation of passing this certification. If you did not receive an email within 24 hours of registering, please contact vaddio.marketing@milestone.com.
