

Date: Oct. 25, 2017
To: Vaddio Dealers
From: Jay Kilby, Dir of Product Management, Vaddio
Subject: End of Life (EOL) Product discontinuation and transition notification

Effective immediately, Vaddio has discontinued the CeilingView HD-18 DocCAM product line due to a critical component end-of-life.

As a replacement option, beginning on November 13, Vaddio will begin shipping a new DocCAM 20 HDBT recessed ceiling camera system, with 20x zoom and high-definition (1080p) resolution. The new camera integrates our popular OneLINK solution which provides HDBT connectivity for video, power, and control over a single Cat5e/6 cable at distances up to 328 ft. (100M)
