PRODUCTIONVIEW™ HD MV

HD Camera Control Console with Multiviewer, Analog and Digital Outputs, Camera Preset Video Thumbnails and Optional TeleTouch™ Multiviewer Touch Screen Control Monitor

The Vaddio ProductionVIEW™ HD MV production switcher with integrated camera controller and multiviewer is a powerful, cost effective intuitive platform for live presentation environments. Adding the optional Vaddio TeleTouch™ Multiviewer Touch Screen Control Monitor provides live video switching with the touch of your finger!

The ProductionVIEW HD MV is a broadcast quality 6 x 2 multi-format, seamless video mixer that also provides two discrete outputs for dual bus program feeds (two independent 6 x 1 switcher-mixers).

It also includes a broadcast style 3-Axis/1-Button Hall Effect Joystick with twist-handle Zoom Control as well as separate Pan, Tilt and Speed Control Knobs. Cuts, Dissolves and Wipes can be achieved through user-selectable buttons built into the control surface. A new Lower Screen Graphic (LSG) function allows users to overlay their computer graphics onto the program video output. Analog and digital HD video resolutions up to and including 1080p/60fps are supported by the ProductionVIEW HD MV (see Technical Specifications).

ProductionVIEW HD MV is the ideal HD switcher and camera control system for a wide variety of video applications, including houses of worship, local government and live event production.

Optional TeleTouch Multiviewer Touch Screen Control Monitor

See, Touch and Switch…

With Vaddio’s revolutionary TeleTouch Multiviewer Touch Screen Control Monitor, video production operators can easily see and switch all live feeds and create “video thumbnails” of preset camera shots.

Eliminates individual preview monitors

The TeleTouch Multiviewer Touch Screen Control Monitor displays up to six preview monitors and allows the camera operator to see and switch all the live video feeds by simply touching the windows that they want controlled.

Each camera input can have up to 12 stored “video thumbnails” of each preset camera shot. The video thumbnails provide an easy way to identify and recall preset camera positions on a per input basis in the preview window, which greatly simplifies overall console operation.
The ProductionVIEW HD MV includes the following items:
- ProductionVIEW HD MV Camera Control Console with Multiviewer Capability
- 18 VDC Power Supply with AC Power Cord
- Documentation

Optional TeleTouch Multiviewer Touch Screen Control Monitor available:

**TECHNICAL FEATURES**

3-Axis Hall-Effect Joystick
The improved Hall-Effect joystick includes larger handle for better grip, along with a button that moves the PTZ camera to its home position when pressed.

Lower Screen Graphic
Users can overlay their computer graphics onto the program video output. A variety of sizes and transparency levels are available through buttons on the console.

Six Auto-Configuring RS-232 PTZ Control Ports
ProductionVIEW HD MV has six (6) discrete PTZ control ports that eliminate the need to daisy chain control cabling. The ProductionVIEW HD MV Controller is capable of auto-sensing each camera attached including Vaddio, Sony®, Panasonic® and Canon® (see manual for complete camera compatibility list).

**TECHNICAL IMAGES**

ProductionVIEW HD MV Back Panel I/O Connectors (Left to Right):
1) **Power**: 18VDC, 2.75A 5.5mm OD x 2.5mm ID (positive center)
2) **Inputs 1-5**: RJ-45F for Camera RS-232 and DE-15F (HD-15F) for Analog HD, SD and RGBHV Video
3) **Input 6**: RJ-45F for Camera RS-232 and DVI-I Connector for RGBHV, DVI-D or HDMI w/o copy protect
4) **Preview or Multiviewer Out**: DE-15F for Analog Video, DVI-D connector for DVI-D or HDMI w/o copy protect
5) **Program Out**: DE-15F for Analog Video, DVI-D connector for DVI-D or HDMI w/o copy protect,
6) **Control Port**: On DE-9F (DB-9F)
7) **Tally/Triggers**: On 5mm Molex Euro Connectors
Basic System Configuration:
ProductionVIEW HD MV with RoboSHOT 30 QCCU System and TeleTouch 22" Touch Screen Controller.
