Date: May 1, 2019
To: Vaddio Dealers and Distributors
From: Jay Kilby, Director of Product Management, Vaddio
Subject: End of Life (EOL) Product discontinuation and transition notification

Vaddio is pleased to announce that effective, June 15, 2019, we are transitioning our EasyMic Table MicPOD microphones to a new and improved design. As part of this transition, we will be discontinuing legacy models and other low running bundles. The new TableMIC is fully compatible and is a drop in replacement with existing Vaddio devices having an EasyMIC interface like the EasyUSB Mixer/Amp, ConferenceSHOT AV and AV Bridge MATRIX PRO, with a firmware update.

The new TableMIC features the following improvements:
- New and improved aesthetic design featuring acoustical fabric wrap
- Enhanced audio pickup and speech quality
- Cutting edge microphone elements with superior clarity and distortion-free response
- Button free capactive touch interace
- Improved audio equalization curves
- Same simple EasyMIC Interface for fast, installer friendly installations

Additional details and technical product specifications are available on legrandav.com/vaddio.

The Vaddio customer care team will automatically transition legacy orders and registrations to the corresponding new TableMic versions as soon as existing stock runs out. Pricing remains the same between the two series to minimize interruptions with your purchase orders and business.

Otherwise, for those customers desiring to place last time orders of the legacy part numbers, we will be offering a last time buy options as follows:
- Last Time Purchase Orders: Must be received by Vaddio, no later than June 15, 2019. Orders will be filled on a first come, first serve basis, while supplies last.
- Last Delivery Date: Scheduled delivery must take place no later than July 30, 2019.

A list of cross-referenced part numbers is available below for your reference.

For more information on these or other products, please contact your Legrand | AV sales representative.

Sincerely,

Jay Kilby
Director of Product Management, Vaddio
