Subject: Select OneLINK HDMI and OneLINK Bridge Bundles Transition Notification

Due to product line simplification efforts, starting in October, Vaddio will no longer offer select OneLINK HDMI and OneLINK Bridge bundles. OneLINK HDMI and OneLINK Bridge interfaces will continue to be available as standalone units or with currently sold RoboSHOT cameras. A list of discontinued bundles and their recommended replacements are listed in the tables below.

The discontinued bundles provided extension for legacy RoboSHOT HDMI cameras. With the introduction of 12E and 30E RoboSHOT cameras in early 2019, the new RoboSHOT cameras are PoE+ powered and the legacy extension kits do not provide power to these 2019 and beyond models. The recommendation is to purchase RoboSHOT 12E or 30E **HDBT** models and pair with OneLINK HDMI or OneLINK Bridge extension units.

A list of cross-referenced part numbers is available below for your reference.

#### Discontinued part numbers

Description	Discontinued Part Number*
OneLINK HDMI Extension for RoboSHOT HDMI Cameras	999-9590-000
OneLINK Bridge Extension for RoboSHOT HDMI Cameras	999-9690-000
