PICTURE IN PICTURE AND GRAPHIC LAYERS

AV Bridge 2x1

The AV Bridge 2x1 is a powerful presentation switcher that not only switches between two HDMI sources, but can combine those sources in multiple layouts for richer experiences. Those combinations are outlined in the examples to the right.

Four Corner
(Choose which corner you would like the inset)

On screen graphics are an easy way to brand your video content or provide additional information to your audience. The AV Bridge 2x1 can save dozens of frequently used graphics for easy retrieval through the Vaddio Device Controller touch screen or other control system. Graphics can be placed anywhere on the screen. Some frequently used graphics are outlined in the examples to the right.
