ALR – PREMIUM AMBIENT LIGHT REJECTING TECHNOLOGY

For environments with uncontrolled ambient light, there's no better solution than Da-Lite's Premium ALR lineup.

Our industry leading screen surfaces are designed to achieve optimal ambient light rejection. The result is a bright, crisp image without glare – no matter how much light is in the room.

Note: The Tensioned Contour and Tensioned Advantage Series featuring Parallax Pure look visibly different compared to Da-Lite tensioned screens with vinyl surfaces. This is due to the nature of the Parallax Pure material, a micro-layered, high-grade plastic lens system. While it may have slight variations in appearance, the Parallax Pure surface is optically flat and up to 4K ready.
