

XAP-1510

WHAT THIS PRODUCT DOES:

The XAP-1510 combines leading-edge 802.11ac technology with high output power to deliver outstanding dual-band Wi-Fi performance. The sleek design allows for unobtrusive mounting on a ceiling, wall or other flat surface—making it a great choice for maximizing coverage in both Residential and Commercial environments. It is compatible with the XWC-1000 Wireless Controller and can be used standalone or as part of a multi-AP deployment. Installation is simple, requiring only a single Ethernet cable that delivers both power and data through the integrated PoE+ port.
