C2G Performance Series Ultra Flexible HDMI® Cables

C2G Performance Series HDMI cables are designed, manufactured, and tested to deliver ultimate performance. These cables provide features that make them an ideal solution for commercial AV installations in Corporate, Government, Healthcare, Higher Education and K-12 School applications.

C2G Performance Series features include:

Compact Overmold

Integrated Finger Grips

Gripping Connector Shell

- **100% Testing**
  100% of cables are tested at the production line to ensure that it meets our standards—providing the peace of mind that it will perform as expected in the field.

- **Rated Cable Jackets**
  Each cable jacket is rated to the highest standard required for the installation location—reducing the time and complexity required to select the right cable.

- **Commercial Grade Connectors**
  The connectors feature a compact overmolding with integrated finger grips on all sides making these cables easy to insert and remove in limited access spaces and high-density environments. Additionally, the gripping connector shell provides two times the port retention of a standard connector reducing the chances of an accidental disconnect.

- **Lifetime Warranty**
  All C2G Performance Series Cables are backed by a lifetime warranty providing the peace of mind that C2G stands behind these products.

C2G Performance Series Ultra-Flexible HDMI Cables:

The cables are the ideal solution for connections within a rack, in-wall connections, or short connections on a conference room table or lectern.

- The CMG/FT4-rated jacket meets the highest standard required for in-wall installation, increasing the flexibility of where these cables can be installed.

- A ¼ inch (6.5mm) minimum bend radius makes these cables perfect for installations in a tight space or high-density environment—like those commonly found in an AV rack.

- Available in lengths from 1-10 feet, these cables are perfectly suited for short connections between devices

Key Specifications:

Connector Dimensions:
- Depth: 1.2in (excl. shell), 1.6in (total)
- Height: 0.4in / Width: 0.7in
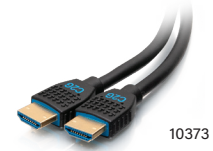

Conductor Size: 30AWG

Cable O.D.: 0.2in (6.0mm)
Jacket Rating: In-wall, CMG (FT4)
Minimum Bend Radius: w0.25in (6.5mm)
Bandwidth: 18Gbps
