vaddio®

Simple, easy, smooth wireless hybrid meetings with great audio and video

Barco partners with Vaddio to allow you to impress remote and in-room users with superior hybrid meetings.

Vaddio IntelliSHOT auto-tracking camera

The Vaddio IntelliSHOT[®] camera makes video collaboration easy and effortless. Equipped with advanced IntelliFrame™ technology, the IntelliSHOT ePTZ camera is the only auto-framing device that can be adjusted based on the room conditions and user preferences. Thanks to its integrated beamforming microphones and paired with a speaker device, the IntelliSHOT offers a full all-in-one experience.

- Advanced Intelligent Framing keep your participants in view
- 30x zoom with 70.2 degree field of view
- Simultaneous USB 3.0, HDMI and H.264 IP Streaming (RTSP or RTMP)
- Two integrated beamforming microphones with built-in Acoustic Echo Cancellation (AEC)
- Balanced audio line in and out

ClickShare Conference wireless conferencing

With ClickShare Conference, you can simply walk in and wirelessly connect to the meeting room's display and Vaddio IntelliSHOT camera.

With only one click you host a video conference from your own device and with your preferred conferencing solution. You can share content and benefit from the superior audio and video quality of the Vaddio IntelliSHOT camera.

- Control your meeting content with the Button or App.
- Meet in all security and privacy.
- Easily manage your devices across the enterprise
