

Product Environmental Profile

Chief THINSTALL™ Wall Display Mount

COMPANY OVERVIEW

● **Sustainability built in to support our associates, customers, and the environment**

At Legrand North and Central America, we're committed to leading by example within our own operations, to developing high quality solutions for our customers' High Performance Buildings, and to transforming how people live and work – more safely, more comfortably, more efficiently.

● **Better Performance**

A core principle of designing for sustainability drives us to innovate products and systems that enable buildings to reach exceptional levels of performance, bringing about industry-leading ideas, inventions and initiatives.

● **Better Operations**

A commitment to a leadership role in operational excellence through environmental management, optimizing the way we manage energy, water and waste.

● **Better Lives**

A dedication to enhancing employee and community welfare through programs that help people enjoy healthier, more productive and more rewarding lives.

For more information on Legrand's PEPs and other sustainability initiatives, visit legrand.us/about-us/sustainability.

LEGRAND'S ENVIRONMENTAL COMMITMENTS

● **Incorporate environmental management into our industrial sites**

Of all Legrand sites worldwide, over 85% are ISO 14001 certified (sites belonging to Legrand for more than five years).

● **Offer our customers environmentally friendly solutions**

Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

● **Involve the environment in product design**

Reduce the environmental impact of products over their whole life cycle.

Provide our customers with all relevant information (composition, consumption, end of life, etc.).

REFERENCE PRODUCT

Function	Provide mounting capabilities for a 42" to 82" landscape screen to a wall during a 10 year life time.
Reference Product	 <p data-bbox="459 1906 625 1933">Part Number LSTU</p> <p data-bbox="459 1939 1091 1966">Universal flat panel wall display mount with a weight capacity of 56.7 kg</p>

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

Product Environmental Profile

Chief THINSTALL™ Wall Display Mount

PRODUCTS CONCERNED

The environmental data is representative of the following products: LSTU, LTTU, MSTU, and MTTU

CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market.

Total weight of Reference Product with unit packaging	4,830 g
--	----------------

Plastics as % of weight		Metals as % of weight		Others as % of weight	
Product					
Nylon 66	0.5%	Steel	79.6%		
POM	0.2%	Stainless steel	0.7%		
Packaging					
LLDPE	0.8%			Cardboard	17.6%
				Paper	0.6%
Total plastics	1.5%	Total metals	80.4%	Total others	18.2%

MANUFACTURING

This Reference Product come from a site that observes the applicable legislation for industrial sites.

DISTRIBUTION

Products are distributed from logistics centers located to optimize transport efficiency using EPA SmartWay® certified carriers to reduce greenhouse gases emissions. Information on the distance of distribution is not available so the PCR hypothesis for “Intracontinental transport”, 2175 miles (3500 km) by heavy truck, was used. This represents transportation of the Reference Product from our warehouse to the local point of distribution in the North American market.

Product Environmental Profile

Chief THINSTALL™ Wall Display Mount

INSTALLATION

It is assumed four hole-drillings on the ceiling wall is needed. The model is based on driving a 1.5-HP (1.119 kW) power drill for one minute.

USE

Servicing and maintenance:

Under normal conditions of use, this type of product requires no servicing or maintenance.

Consumable:

No consumables are necessary to use this type of product.

END OF LIFE

• **Hazardous waste* contained in the product:** no hazardous waste
 (*) Hazardous waste as defined by European Commission decision 2000/532/EC.

• **Recycling rate:**

Calculated using the disposal pathway described in US EPA's Advancing Sustainable Materials Management: 2018 Facts and Figures Report, the recyclability rate of the Reference Product is estimated as 39.9%. This value is based on data collected from a technological channel using industrial procedures. It does not pre-validate the effective use of this product for end-of-life electrical and electronic products.

Separated into:	(% mass of Reference Product with packaging)
- plastic materials:	0.1%
- metal materials:	27.4%

Recycling rate of packaging	(% mass of Reference Product with packaging)
- all types of materials:	12.4%

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use, and end of life. It is representative of products marketed and used in North America.

The following modelling elements were taken into account:

Manufacturing	Packaging taken into account. As required by the PEP ecopassport program, all transport for the manufacturing of the Reference Product, including materials and components, has been taken into account. The waste generated during manufacturing phase has been taken into account.
Distribution	Transport between the last distribution center and an average delivery to the sales area. The default scenario modelled maximizes the environmental impact using the PCR hypothesis for "local transport": 2175 miles (3500 km) by heavy truck.
Installation	The end of life of the packaging (0.91 kg) is taken into account at this phase. Transport of packaging to end of life treatment is taken into account at this phase.
Use	<ul style="list-style-type: none"> • Under normal conditions of use, this type of product requires no servicing or maintenance. • No consumables are necessary to use this type of product. • Product category: AV mount
End of life	The end of life scenario models the environmental impact using PCR hypothesis for "intracontinental transport": 621 miles [1000 km].
Software used	EIME V5.9.1 and its database "CODDE-2020-12" and the indicators defined in the PCR ed 3 in alignment with the EN15804 standard

The values of the 27 impacts defined in the PCR-ed3-EN-2015 04 02 are available in the digital database of pep-ecopassport.org website. The environmental impacts of the Reference Product are representative of the products covered by the PEP, which therefore constitute a homogeneous environmental family.

The environmental impact of the Reference Product occurs predominantly during the raw material and manufacturing phase.

Product Environmental Profile

Chief THINSTALL™ Wall Display Mount

ENVIRONMENTAL IMPACTS (continued)

For products other than the Reference Product, the environmental impacts were calculated and the impact factors relative to the reference product are presented below. To determine the impacts for the various products in the family, the impacts of the reference product should be multiplied by the corresponding factors for the applicable products in the table below.

Part Number	Manufacturing	Distribution	Installation	Use	End of Life
LTTU	ADPe: 1 OD & FW: 1.1 PE: 1.3 WP: 1.5 All else: 1.4	1.3	1.0	n/a	1.4
MSTU	ADPe: 1 OD & PE: 0.9 All else: 0.8	0.8	GW, A, WE, POCP & WP: 0.7 All else: 0.8	n/a	0.8
MTTU	OD & WE: 1.1 ADPe: 1.0 FW: 0.9 WP: 1.3 All else: 1.2	1.1	GW, A, WE, POCP & WP: 0.7 All else: 0.8	n/a	1.2
