Conferencing Trends for the Hybrid Workplace

Cultivate a culture of belonging with transformational conferencing spaces that put people first.

Llegrand® | AV

Be Seen. Be Heard.

Conferencing has changed forever. Businesses that focus on cultivating a culture of belonging with transformational workplace experiences will ensure employees feel valued. Strategically deployed AV systems create meeting spaces that put people first.

The brands of Legrand | AV are uniquely positioned to assist organizations with conferencing solutions that result in better collaboration, allowing employees to be seen and heard, no matter where they're working.

Meeting Equity

Bring everyone to the same table, no matter where they are, with conferencing experiences where all voices are heard.

Reliability

Maximize meeting uptime with remote management and solutions that protect AV equipment.

Repeatable Success

Save time and money across rollouts to meet the greater need for more conferencing spaces.

Familiarity

Provide a consistent experience across various office locations for user familiarity and comfort.

Adaptability

Easily modify conferencing spaces for future needs by specifying solutions that can grow as you grow.

Explore These Hybrid Conferencing Trends in These Top Spaces

Small Conference Rooms

Create Spaces that Level the Playing Field

Meeting spaces have largely been optimized for the people physically in the room. Going forward, conference room design must accommodate a variety of in-person to remote attendee ratios. This means using technology that approximates the 1:1 experience we've all had with remote conferencing. Culturally, if we don't do these things, we risk estranging people who are working remotely and losing them to companies that are optimized to provide a more collaborative environment.

Meeting Equity

Vaddio ConferenceSHOT ePTZ Camera
Recreate the 1:1 experience with intelligent auto-framing algorithms that keep participants in view.

Familiarity

Luxul Small Network Switches
Adding small ethernet switches like the SW-100-04P or XGS-1005 to conference room tables provides reliable, high-bandwidth connections for video conferencing.

Repeatable Success

Chief Proximity CSPH
Store equipment where it's used – and prepare large roll-outs by pre-populating devices off-site before deployment.

Adaptability

Chief Tempo Flat Panel Floor Support System
With ample storage space and the ability to add dual displays, Tempo can be sized to fit the space.

Level Up and Be Seen

Create a better visual experience with the Middle Atlantic Forum Arc Table to ensure everyone is in sight.

Impromptu Meeting Spaces

As people return to the office, they're finding a greater need for impromptu conference rooms to hold quick brainstorming sessions. The trend is heading toward repurposing private meeting rooms and offices as videoconferencing spaces that feature acoustic privacy. Open conference spaces should be carefully approached with audio top of mind.

" THE GOAL IS TO LEVERAGE THE OFFICE AS A VEHICLE OF COMMUNICATING COMPANY CULTURE AND MAKE IT A PLACE PEOPLE WANT TO COME BACK TO. "

David Albright
Business Development
Commercial Interiors
for Legrand | AV

Meeting Equity

Middle Atlantic Forum Collaboration Suite
This flexible a la carte solution supports AV-enhanced meeting equity for attendees, whether they're in the office or working remotely.

Reliability

C2G Performance Series HDMI Cables
Designed, manufactured, and tested to deliver ultimate performance.

Repeatable Success

Vaddio Deployment Tool
Simplify installations by viewing all your Vaddio products across a deployment on one screen. Conduct mass firmware updates on hundreds of devices all at once.

Familiarity

C2G Conference Room Video Hub
Display and share crisp, high-resolution 4K content in conference rooms for improved decision making.

Adaptability

Chief Fusion Manual Height-Adjustable Cart with Vaddio ConferenceSHOT ePTZ
Mobile conferencing systems bring the meeting to any location.

Medium to Large Conference Rooms

This is where the rubber meets the road. You've got to use all your AV know-how to create a space that can deliver equitable experiences for those in the room and at home. Large rooms need large solutions to clearly display vital information while also keeping everyone in audio and video range. In this new conferencing environment, AV has more influence than ever.

" THE AV TEAM NEEDS TO OWN THE FURNISHINGS. THEY NEED TO TALK ABOUT THE FUNCTION OF THE ROOM BECAUSE EVERY PIECE OF THE ROOM MATTERS."

Brian Retzlaff
Solutions Engineer
Legrand | AV

Meeting Equity

Projecta Tensioned Advantage with SightLine
Ensures everyone in the room can see the content. Provides a great aesthetic that allows more choices in camera and speaker placement.
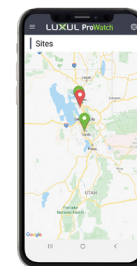

Reliability

Luxul ProWatch
ProWatch gives you the ability to proactively respond to network issues and remotely manage your clients' systems – without setting foot on their properties.

Repeatable Success

C2G 4K HDMI Adapter Rings
No conference room should be without one. Make sure people can connect to the display system no matter what device they bring to the room.

Familiarity

Luxul AMS-1208P Switch
Ideal for all mid-size conference rooms. Provides PoE ports for microphones, cameras and control panels.

Adaptability

Middle Atlantic C3 Credenza with Dual Display
With single and dual display options, plus choices on numbers of equipment bays, the C3 Credenza is the personification of flexibility.

Level Up for Better Collaboration

Vaddio IntelliSHOT Auto-Tracking Camera
With auto-framing that automatically keeps participants in view, your video calls can have an even bigger impact on productivity and the bottom line.

Boardrooms

Equip boardrooms with AV technology that provides the best in audio and video communication, so quarterly reports and town hall presentations go off without a hitch. Better yet, make an impression with boardrooms that have a wow factor to reinforce the company's culture and values.

"WE'RE FINDING 70% OF OFFICE ISSUES ARE SOUND-RELATED. SOUND MANAGEMENT MATTERS."

Sarah Liberati
Architectural Systems
Product Manager
Focal Point

Meeting Equity

Vaddio ConferenceSHOT AV HD Conference Room System
Elevate the collaboration experience with great video and audio from the ConferenceSHOT AV. Choose table or ceiling mics for your meeting space, then add the ConferenceSHOT speaker for robust in-room audio.

Adaptability

Middle Atlantic C3 Credenza with Dual Display
With single and dual display options, plus choices on numbers of equipment bays, the C3 Credenza is the personification of flexibility.

Familiarity

Projecta Tensioned DescenderPro® and DescenderPro with SightLine™ and Parallax Stratos 1.0
Let presentations shine without being affected by ambient light, complete with a sleek cable drop that doesn't spoil the boardroom aesthetic.

Reliability

Proximity Component Storage Slide-Lock Panel
The Proximity® Component Storage Slide-Lock Panel facilitates easy, concealed mounting of AV equipment behind displays. To simplify service and accessibility to the equipment simply slide the storage panel out.

Level Up for the Wow Factor

Chief TiLED dvLED Video Wall Mounting System
Make a boardroom to rule them all with a dvLED video wall that supports the most creative configurations.

Training Rooms

Training rooms have perhaps the biggest AV challenges in a hybrid workforce environment. Adding remote capabilities to training environments requires collaboration solutions that keep everyone on the same level of interaction regardless of how distributed the team might be.

Meeting Equity

Vaddio USB Audio Bundle
Using multiple microphones and speakers in a training room allows everyone to hear and be heard, no matter where they are seated.

Reliability

C2G HDBaseT Extenders
Extend a 4K HDMI source up to 130ft to a 4K display using a single Cat6a Ethernet cable. Ideal for delivering flawless 4K quality to training room displays.

Adaptability

Vaddio EasyIP System
Simplify conference room designs by moving video and audio onto the network. Provide superior user experience with up to four PTZ cameras.

Familiarity

Projecta Dry Erase Screen
This multi-purpose tool serves as a projection-quality surface for interactive projectors and as a magnetic whiteboard that can be written on with dry-erase markers.

Level Up for Mobility

Chief XPA1UB Cart with interactive display and Vaddio IntelliSHOT
The ideal mobile solution for training rooms. Perfect for extra-large and touch panel displays as well as dual monitor* video conferencing.

*Use the FCA624B accessory for dual monitor configurations.
