C2G PERFORMANCE SERIES HDMI® CABLES

HDMI® is the most popular audio/video connection in commercial environments. Carrying both uncompressed audio and video at resolutions up to 4K, HDMI serves as a versatile platform for designing commercial audio video systems. The C2G product portfolio includes Performance Series HDMI Cables that are a must have in all installations from the board room to the classroom.

C2G Performance Series HDMI cables are designed, manufactured, and tested to deliver ultimate performance. With the support of the Legrand | AV brands and 30+ year history in the AV space, these cables provide features that make them an ideal solution for commercial AV installations in Corporate, Government, Healthcare, Higher Education and K-12 school applications.

QUALITY

TESTED

CONVENIENCE

CONFIDENCE

Compact Overmold

Integrated Finger Grips

Gripping Connector Shell

C2G PERFORMANCE SERIES FEATURES INCLUDE:

100% Testing

100% of cables are tested at the production line to ensure that it meets our standards—providing the peace of mind that it will perform as expected in the field.

Rated Cable Jackets

Each cable jacket is rated to the highest standard required for the installation location—reducing the time and complexity required to select the right cable.

Commercial Grade Connectors

The connectors feature a compact overmolding with integrated finger grips on all sides making these cables easy to insert and remove in limited access spaces and high-density environments. Additionally, the gripping connector shell provides two times the port retention of a standard connector reducing the chances of an accidental disconnect.

Lifetime Warranty*

All C2G Performance Series Cables are backed by a lifetime warranty providing the peace of mind that C2G stands behind these products.

* HDMI Active Optical Cable is a 3 Year Warranty

ACTIVE OPTICAL COPPER HDMI

Active Optical Copper HDMI Cables support all HDMI 2.1 features and have been rigorously tested to perform as expected, even at longer than standard HDMI length limitations. [Learn more](#)

Item #	Length (ft)	Certification	Signal Type	Connector	Active/Passive	Maximum Bandwidth	Maximum Resolution	Maximum Refresh Rate	Cable Diameter (in)	Minimum Bend Radius (in)	Jacket Rating
C2G41480	15ft	C2G Certified	HDMI 2.1	Gripping	Active	18Gbps	4K	60Hz	.19in	15mm (no load) 70mm (under load)	CMP

ULTRA-FLEXIBLE HDMI CABLES

The C2G Performance Series Ultra Flexible HDMI Cables are the ideal solution for in-rack, in-wall, or short connections on a conference room table or lectern. The CMG/FT4-rated jacket meets the highest standard required for in-wall installation and the ¼ inch (6.5mm) minimum bend radius makes these cables perfect for installations in any tight space or high-density environment.
