## Video Conferencing Solutions

legrand® | AV

BUILDING RELIABLE VIDEO CONFERENCING  
SYSTEMS THAT WORK FOR YOU

### MIDDLE ATLANTIC

Premium+ PDUs with RackLink

- Compact or rackmount versions
- 15 or 20 amp versions
- 4 or 9 outlets
- 2-stage MOV or patented *Series Protection™* surge technology
- Best-in-class monitoring, logging, and data reporting for remote system management
- Enterprise level network security and support of IT protocols

COMING  
SOON!

### MIDDLE ATLANTIC

NEXSYS Compact Power Distribution Units (PDU)

- Perfect for behind-the-display applications
- 15 or 20 amp versions
- 2 or 6 outlets
- Enhanced Multi-Stage MOV or patented *Series Protection™* surge technology with status via dry contacts
- Selectable under/over voltage protection
- IEC inlet allows selection of desired length power cord (2' cord included)

NEXSYS.

### MIDDLE ATLANTIC

NEXSYS Line Interactive Uninterruptible Power Supply (UPS) System

- 1000VA, 1500VA or 2000VA sizes available
- Surge Protection
- 8 outlets — bank controlled or individually controlled options
- Pure sine wave output and AVR (automatic voltage regulation)
- RackLink enabled
- IEC inlet allows selection of desired length power cord (6' cord included)
- **EnergyStar Certified**

NEXSYS.

### VADDIO

Deployment Tool – Remote Management and Monitoring

- Power standby and rebooting of devices when necessary
- Muting and unmuting of video and audio
- Automatic device discovery, setup, and control
- For mass deployments; login, password reset, and firmware updates are possible across a complete deployment
- Backup of device configuration data to aid in troubleshooting or replicating configuration across multiple devices
- Live video preview of IP streaming enabled devices along with simple status monitoring of equipment

### MIDDLE ATLANTIC

NEXSYS Rackmount Power Distribution Units (PDU)

- 15 or 20 amp versions
- Enhanced Multi-Stage MOV or patented *Series Protection™* surge technology with status via dry contacts
- Selectable under/over voltage protection
- Control remotely via contact closure
- IEC inlet allows selection of desired length power cord (9' cord included)
