RSH
Custom Rackshelf Finder

The RSH Custom Rackshelf Finder boasts a database of over 11,000 meticulously measured components to suggest the best RSH shelf or faceplate to hold equipment. Search for the component and select the right custom rackmount shelf for the job.

UNINTERRUPTIBLE POWER SUPPLY
(UPS) Runtime Calculator

An Uninterruptible Power Supply (UPS) instantly provides clean backup power to a system in the event of a power loss or a power anomaly that will damage equipment or take down the system. Having the appropriately sized UPS is key to ensuring that #1, there is enough battery runtime to accommodate the load of essential equipment for a specific amount of time, and #2, money is not wasted paying for too large of a UPS.
