

FACILITATORS

Wendy Cox
Director,
Product
Management
Da-Lite

Wendy oversees the product lifecycle of the brand's extensive screen, screen surface and accessory portfolio. For 30 years, she has held numerous leadership positions in product management, product development, engineering, and marketing for the brand.

While she has been responsible for many notable product launches in her tenure at Da-Lite, Wendy played an integral role in the team that brought pivotal technologies to market such as Da-Lite's HD Progressive high resolution and Parallax® ambient light rejection screen surfaces. She was also instrumental in the integration of the Da-Lite brand into Milestone and then Legrand. Her industry prowess has been recognized industry-wide as she was named the AVIXA Women in AV recipient in 2015 and to Commercial Integrator's #AVLivingLegends list in 2023. Wendy prioritizes her family and friends and can be found soaking up a sizzling summer afternoon floating on a pontoon in a Northeast Indiana lake.

Ken Brueck
Co-Founder
Modus VR

With nearly two decades of experience in enterprise software design, Ken's passion is in delivering simple solutions to complex problems.

During the workday, he's dedicated to delivering efficient, satisfying results for his customers and loves a good challenge. In his free time, Ken enjoys spending time with his two girls, tumbling down a mountain strapped to a snowboard, and sim racing.

TENSIONED ADVANTAGE® WITH SIGHTLINE™

Now Available in the Modus VR Product Library!

Join us for a virtual workshop and fall in love with SightLine all over again.

SUMMARY

Da-Lite is pleased to announce its Tensioned Advantage electric screen with SightLine cable drop is available in the January 2024 release of Modus VR. As the first manufacturer to feature a projection screen system on the platform, we invite you to join us for a live demo where you can interact and see the screen in a way you've never experienced - from various sizes, aspect ratios, screen surfaces, lighting to room environments all in virtual reality.

Get googly-eyed all over again for the Tensioned Advantage with SightLine in this can't-be-missed virtual workshop.

About Modus VR

Modus VR provides software tools that accelerate the design and sales process of commercial AV projects. Unlike other rendering packages, Modus allows for real-time presentation and on-the-fly changes, resulting in fewer meetings and faster alignment among stakeholders.

In addition to its remarkable speed, Modus works with manufacturers to visualize the capabilities of real-world products, demystifying harder-to-understand concepts like microphone pickup patterns, camera field of view, speaker coverage, and more. Once a project is complete, Modus VR provides tools for generating traditional renders, 360s, line drawings, and a bill of materials in seconds.
