

Greater Flexibility in Furniture Power

The dash Furniture Power Center is designed to add convenient access to power and data directly to your furniture while maintaining a clean design. A standard offering is provided of ready-to-purchase configurations or custom configurations can be created to meet the individual needs of your environment.

It is ideal for hospitality spaces needing easy access to power, data, or control of nearby devices with the built-in switching controls. Devices are available in either white or graphite finishes with matching trim plates. Additional trim plates are available in stainless, bronze, and brass finishes. The dash Furniture Power Center provides a simple and elegant way to stay connected.

dash™ Furniture Power Center

Simple Customization:

Unlike other power and charging units, the dash offering is customizable. Simply choose the combination of power and charging that you need, and we'll create the device for you.

Easy Installation:

Easy installation into existing furniture with minimal tools required. Simply cut an opening, insert, tighten clamp and snap on the trim plate.

Interchangeable Trim Plates:

Designed to blend into spaces, complementing the existing décor with multiple trim plate finishes available and no exposed screws.

Horizontal Surface Options:

Safe for spills and ready to mount in horizontal surfaces like tabletops.

Right-Size to Your Space:

Available in sizes from 2-to-6 cubes, the Furniture Power Center ensures you have the right assortment of devices for your application.

Lighting Control:

Configure a furniture power center with a switch to turn cord-connected light fixtures on and off.

Device Charging Convenience:

Available with 15W USB Type-A and USB Type-C Combination port.

Data Connectivity:

Add additional data connections with optional data frames that can accept standard keystone jacks or TracJacks®.

PRODUCT INFORMATION

Standard Configurations:

The dash Furniture Power Center is offered in stocked, ready-to-purchase configurations of 1 Outlet and 1 USB A/C, 2 Outlets and 1 USB A/C, and 2 Outlets with 1 USB A/C and 1 Switch.

Custom Configurations:

The dash™ Furniture Power Center offers designers a higher degree of customization with the ability to configure and specify cube selections and arrangements to fit your environment.

Step 1:

Select Number of Cubes and Color of Cubes

Available in sizes from 2 to 6 cubes and colors in either white or graphite.

Step 2:

Select Cube Functions

Available with power, data, and switch cubes. Specific conditions apply when configuring, please consult your Legrand sales representative on potential configuration options and availability.

15A Tamper-Resistant Rotated Outlet

15A Tamper-Resistant Outlet
