

# Making Stacked & Staggered Bouquets

**Stacked and Staggered Bouquets provide an easy, attractive way to display groups of Qualatex® latex and Microfoil® balloons. Once balloons are arranged, they can be tied to gifts, bows, chairs, railings, or other weights for impactful deliveries and decorations.**

## Stacked Bouquet

**Labor:** About 5 Minutes

**Helium:** About 3.5 cu. ft. (.099m<sup>3</sup>)

**Materials:**

1 18" (46cm) or 20" (51cm) Qualatex Microfoil Balloon

6 11" (28cm) Qualatex Latex Balloons

Qualatex ProSizer™ Template (11" Size)

Qualatex BalloonRibbon™

Weight

Scissors

**Instructions:**

1. Helium inflate all of the balloons and attach to BalloonRibbon.
- NOTE:** Use the sizing template to ensure all the latex balloons are the same size so they will nest together and create a symmetrical bouquet.
2. Gather three of the latex balloons in your fist and pull down tight on the BalloonRibbon to get all three balloons even and resting on your fist. All three balloon necks should be at the same level.
3. Repeat Step 2 with the other three latex balloons and nest them into the first layer of balloons. **NOTE:** The two layers should be spaced so you don't see gaps between layers.
4. Attach the latex balloons to the weight.
5. Add the Microfoil balloon so that it's nested on top of the arrangement, then tie it to the weight.

## Staggered Bouquet

**Labor:** About 5 Minutes

**Helium:** About 3.5 cu. ft. (.099m<sup>3</sup>)

**Materials:**

3 18" or 20" Qualatex Microfoil Balloons

4 11" Qualatex Latex Balloons

Qualatex ProSizer Template (11" Size)

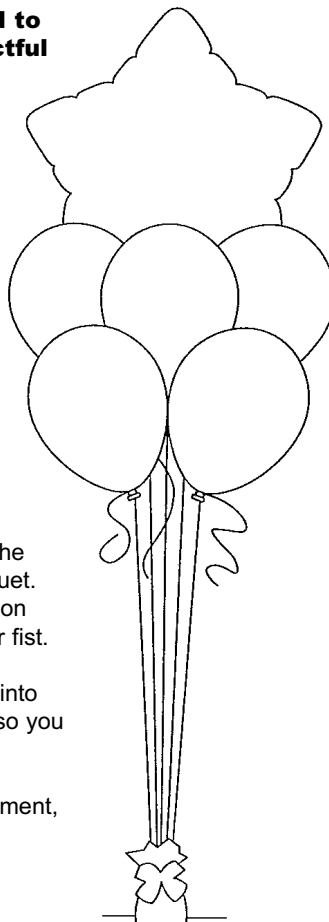

Qualatex BalloonRibbon

Weight

Scissors & Masking Tape

**Instructions:**

1. To build consistent bouquets efficiently, mark a wall with pieces of masking tape spaced 7" (18cm) apart. (Figure 1)
2. Helium inflate all of the balloons and attach to BalloonRibbon.
- NOTE:** Use the sizing template to ensure all the latex balloons are the same size.
3. In one hand, gather all the balloons together at the lowest tape mark.
4. Pull what will be the top balloon in the bouquet to the highest tape mark. Then, pull the next highest to the second highest tape mark, and so on.
5. Attach each balloon to the weight separately.

**TIPS**

- Use your choice of Round, Heart, or Star Microfoil balloons, as well as printed Microfoil and latex balloons to create completely customized Stacked and Staggered Bouquets.
- Super size Stacked Bouquets by using a 36" Microfoil balloon and 16" latex balloons.
- Substitute 16" latex balloons for the 11" in a Staggered Bouquet for even bigger impact.
