311 Report of need for Speed Humps on 2900 Block of Presbury Street Baltimore, MD, 21216

Describe Problems:

Reported the extreme safety hazards we have been experiencing on our block/2900 Presbury Street 2 Blocks from the eastern side of North Ave between Kingwood Street and Poplar Grove Street in West Baltimore, 21216.

The problems stem from excessive speeding and ignoring stop signs as if they are not even there. This has caused frequent traffic accidents most of them hit and run, leaving no one to accept responsibility for property damages and destruction of our city services. City street lights have frequently had to be replaced, which takes a long time. Our fire hydrants have had to be replaced 3 times in the 7 years I have lived here.

Even more concerning are the extreme safety hazards for our residents especially our young children, seniors and handicapped residents. They are often terrified to exit their cars on the street side for fear of getting hit by a car or their car door being hit.

Speed Humps/2900 Block of Presbury Street

1 message

rashidah jones <rashidahann@gmail.com> Thu, May 9, 2024 at 9:47 PM
To: erich@wnada.org

Hello Erich, my name is Rashidah Jones. I spoke with you briefly at the WNADA Comprehensive Revitalization Plan Roll Out meeting held on April 20,2024 at Unity Hall. Our conversation was regarding my extreme frustration in dealing with the previous Baltimore City administration to obtain speed humps on the 2900 block of Presbury Street, Baltimore MD 21216. Presbury Street is in west Baltimore 2 blocks from the eastern side of North Ave between Longwood Street and Poplar Grove Street. I submitted a Request For Traffic Calming Study packet. It took a lot of time to gather and submit the information that was requested of me as the contact person. I had to convince residents to trust in a process they had participated in twice before and saw no results. I told them I would try my best and this is what I did.
Before giving up on the process a third time I ask if I can bring this packet to you in person Mr.Lange to move this extreme safety concern for our community forward.

Thank-You
Rashidah Jones

Baltimore, MD 21216

Email: djones6553@gmail.com

Dear Mr. Jones:

The Department of Transportation (DOT) is in receipt of your 311 Service Request for the installation of speed humps along the block of 2900 Presbury Street.

In order for our Traffic Division to conduct an investigation, the following action must be taken:

1. Contact your community association and share your concerns. This assures that the association is aware of this matter and can share with the community.

2. If your community association is in agreement, they are required to submit a formal community association support letter on the community's behalf, along with the completed traffic calming study form by **mid-July 2020** (form attached). The letter must be written on the community association's letterhead.

The Community Association listed for your area is:

Poplar Grove Association
Ms. Marsha Creek
2905 Mosher Street
Baltimore, MD 21216
~~410-326-6798~~ (410) 362-6798

3. Once the DOT Traffic Division receives the formal letter and the completed traffic calming request form, you or the designated community representative will be contacted in order to begin traffic calming study process. **Please be advised that the duration of a traffic calming study is approximately 90 days.**

Safety and mobility are our top priorities of the Baltimore City Department of Transportation. If we can be of further assistance please contact, Mr. Howard James by email at howard.james@baltimorecity.gov or at (443) 984-2176.

Sincerely,

Charles C. Baker, Chief

September 28, 2020

Dear Chief BAKER,

Thank-you for Acknowledging my request for Speed Humps to be INStalled on the 2900 Block of Presbury Street IN SW Baltimore. Our neighborhood has been plagued with safety hazards due to excessive speeding and many hit and run accidents.

It is unsafe for our children and senior residents to cross the streets. My handicapped neighbor is fearful of opening her car door to exit due to speeding cars going by. We have fears of our car doors being ripped off at times entering and exiting.

Our street lights on Longwood St. + Presbury have frequently had to be replaced due to accidents related to hit and run collisions. The fire hydrants on both ends of our block have been replaced 3-4 times IN less than 4 years, creating additional hazards for our Community Safety.

These losses are also a great expense for our City of Baltimore. Please assist us to improve the safety of Community. We welcome any Suggestions you may have as well. ENclosed are the requested documents.

Sincerely,
Rashidah Jones

Charles C. BAKER, Chief
TRAFFIC DIVISION

Hello Ms. Jones,

I received an update with the traffic division. Unfortunately it was not much of an update. The process for traffic calming request recently changed and the request you were able to submit through 311 was closed out without any notes. This does not mean nothing was done. I am waiting for more information about the data that was collected. This can take up to 30 days. I will follow up with you in late August with our next steps. Thank you for all of your patience.

Kirsten.
