RE: Parking complaint

Der sir/madam,

We are requesting the prompt removal of multiple (4) vehicles all without registration plates being left in front of our building.

All of them do not have registration plates and seem to be dropped off during non-business hours.

The vehicles have extensive body damage.

They are left here for 2-3 weeks at a time until they are removed. However, after about a week, other damaged cars (all without plates) will be dropped off again.

There are 'no parking' signs installed here and we have attached some pictures for your review.

We appreciate your prompt attention to this matter.

Very truly yours,

Vladimir Kalikhman
General Manager
