Stephanie,

There is some evidence of potential water penetration in the basement of 1419 Clarkson Street. Can you please have someone inspect this potential issue.

Jose

Subject: [Non-DoD Source] Repair at Clarkson Street

Good morning Jose,

I hope all is well and that you're preparing for Christmas. The tenants reached out to me in regards to the brick wall inside their home severely cracking. I have attached photos for your reference. I had our contractor go out to take a look and He quoted the repair at \$550. Let me know how you wish to proceed.

Thanks!

Stephanie
