

December 7, 2024

To Whom it May Concern,

I examined "Spanky" Cox on November 3, 2024 and at that time, due to his age (17 years) I felt that he did not require the DHLPP vaccine at this time. He has been vaccinated numerous times with this vaccine over his life and has adequate immunity.

Sincerely,

A handwritten signature in black ink, appearing to read "Dr. Toya R. Mack". The signature is stylized with a large, flowing "D" and "M".

Dr. Toya R. Mack, DVM
