Black cat killed 8/17/2025

1/8/2026

Neighbor, April Clay, with an active Peace Order against her, refuses to restrain her cats. She denies ownership when questioned; however, in the Peace Order proceedings stated she “adopted” the animals. On November 17th, Ms. Clay filed an Animal Control complaint with information she knew to be false, claiming I set my dogs out to intentionally kill the cat:

Description: DOG THAT KILLED CAT LIVES AT 5616 NORTHWOOD DRIVE

Service Questions

Questions	Answers
What type of animal is it?	Cat
Where is the dead cat or dog located?	Public right of way
Where is the animal located?	in the rear of the location
Did the animal appear sick and then die?	Do not know
Did humans or pets come into contact with the animal?	No
What is the size of the animal?	Medium (tri-cycle)

Resident of 5614 Northwood Dr was April Clay (443-813-7757) who claimed the dog at 5616 killed the cat around 5pm 11/17/25. She stated that the D/O at 5616 let the dog out because the stray cat was in the yard, watched the dog kill the cat, then threw the deceased cat into the alley. Ms. Clay also stated that the D/O at 5616 lets the dog out whenever Ms. Clay goes outside or when she goes to her trash cans in order to harass her when she is outdoors or in the alley. AEO's removed the cat, and drove to the front to speak to the D/O at 5616. D/O at 5616 Northwood Dr was Barbra Tunstall (410-725-7527), dog is "Wesley" whose Microchipped (982091071864709). Wesley is up-to-date on his rabies, Exp 12/4/25. Rabies Tag#24926172. Ms. Tunstall stated that her dog Wesley did kill the cat in their yard on 11/17/25 around dinner time, and he had killed another cat on 8/17/25, as well as multiple squirrels and an opossum. She stated he does not like small things in the yard. She stated that she has placed three ultrasonic animal repellers in her yard to keep cats and other small animals away. Photo taken. Ms. Tunstall claimed her neighbor at 5614 would knock over the sensors and set them off on purpose. Ms. Tunstall stated that she has made attempts to secure the yard from small animals to avoid Wesley killing or attacking more animals. Contacted ACI Bevans and decided that the dog would remain on Home Quarantine for 10 days. Home quarantine information was given to Ms. Tunstall and it was explained that the dog may not leave the property, or be outside unaccompanied for that time period. Bite report completed.

April Clay

I knew I felt it!

4.8 on the Richter scale just heard it on the radio. I didn't feel a thing

WoW! Whole house shook

5/2/2024, 11:14 AM

Jus fyi, I'm not sure why you always make Wesley come in the house when I come outside but I can assure you I don't feed him (AT. ALL.) or anything else for that matters. Just a Smile 😊 & a Hi 🖐️. But have a beautiful pleasant day.

GM thanks for asking. I get Wesley to come on not just for you and for whenever there are people outside. He runs up and down the fence and comes in either bruised or really muddy/dusty/pollen-y. Keeps him safe and prevents extra work for me. Have a great rest of the week 👍
