

Water Service Request Notice

Department of Public Works
Bureau of Water and Wastewater
200 Holliday St., Baltimore, MD 21202
City - 311; County - 410-396-7729
publicworks@baltimorecity.gov

Date: 12-15-25 Address: 838 Edmondson Ave

DPW has responded to a request for water service.

- ☐ Found no leak or water-related problem.
- ☐ Problem is City's responsibility. Repairs being scheduled.
- ☐ Repair completed. Water service restored.
- ☐ Leak on customer's service. Customer must repair.
 - ☐ Left on
 - ☐ Turned off
- ☐ Found adequate water supply to water meter. From the meter location to the building is customer's responsibility.

If your water is cloudy following our work, please open a tap on your lowest floor and run the water until clear. Removing your aerator will prevent sediment build up during this process.

Additional details: Need To Install A Meter due To
leak exterior on Outlet Side Pipe. Call To Have
Maintenance To fix. To get a work order & Also
Inspector: 2145 Phone: _____
Received by: _____

The Department of Public Works has begun an accelerated program to replace our aged mains. Over \$300 million dollars will be invested in new mains over the next five years.

Always keep some bottled water on hand for emergencies.
