

Greetings,

Construction on our block has repeatedly left a thick coating of dust on our house and back patio/parking pad. Please see attached images for the current state of the dust.

We live at 1130 East Fort Avenue. The construction is taking place two house to the left at 1126 East Fort Ave.

Even though the construction is two houses away, there is so much dust flying through the air that it coats our house and our neighbors' houses.

The construction supplies can be in seen from the alley behind our houses, accessible from Stevenson Street.

Thank you,

Erin Draper (cell # 305-962-3937) and Jordan Effron (cell # 804-347-1453)
