Good morning,

I am a resident in unit 2631. I went down and discussed this issue with a member of the leasing office this morning but I am following up in this email. While putting my trash in the trash room last night, I saw at least four mice running from the trash that was in there to the back of the room. I wanted to notify you as soon as possible so that the issue could be resolved quickly.

Thank you,
Aidan Keup

Hello,

We have added the trash room to weekly pest control visits on Friday's.

Best,

Good afternoon,

I emailed you all a couple of weeks ago about there being mice in the 6th floor trash room in the building 2. This past Friday (2/6), I saw another mouse running out of the trash room and into the maintenance room next to the trash room (look at attached video). I am not sure what measures have been taken to exterminate the mice, but they have not worked. I understand that this is not an easy problem to solve, but if the mice get into the apartments, there will be significantly more issues. Please address this as soon as possible.

Thank you,
Aidan Keup

Hello,

Pest Control is servicing this area every Friday. As the 6th floor doesn't have an actual trash chute as opposed to other floors, we are working towards a more permanent solution.
