Total Paid	\$0.00			
Amount Due	\$312.04			

I understand that the estimate provided is based on the entering examination of Fly and that it may change as diagnostic and therapeutic procedures progress.

- I understand that this is only an estimate and that the final charges are based on actual procedures performed.
- The estimated range is intentionally broad to anticipate problems and unforeseen factors that can occur in any medical patient.

i.e. this is just an estimate of costs – not the final amount you will pay - it could be more/less

depending on how your pet's exam and treatments go.

I agree to be responsible for all charges relating to my pet's medical care at the completion of services.

- I understand that a deposit may be required and that further payments will be required as care progresses.
- I agree to pay the balance of all charges in full at the end of hospitalization.
- I understand that all charges not paid at the time of service are subject to interest, collection, and legal fees.
- I understand that any aftercare (including recheck exams, follow-up diagnostics, bandage changes, etc.) and medications provided at discharge are not included in the estimate.

i.e. You will need to pay for all treatment/services performed during your pet's visit/stay when you come to take your pet home.

I understand that if the final charges are less than the estimated amount collected there will be a refund for the difference.

- I understand that any account credit or refund will be made to the same payment method of my deposit. *If the refund is for cash or a check, refund checks can take up to two weeks to process.*

This estimate is valid for 30 days from its creation.
