Good Afternoon Mrs. Brockman,

This email is a follow up to a service request you placed on 7/11/26 in reference to work being done by your home at 1325 Eutaw Place. I tried to call the number listed on your service request, 443 850-5856, but the person who answered said it was a wrong number.

It has been stated by the Division Chief and verified by the Resurfacing Manager of the TEC Division, that milling and paving is being done to the road on W. Lafayette Street from Eutaw to Fremont Avenue. No sidewalk work is to be done at your location.

Thank you and have a good day.

Tina L. Martin
