

Subject: Request for Alley Cleanup and Information on Routine Maintenance

Aloha,

I would like to request a cleanup of the public alley behind my property. While this alley is not nearly as bad as the other one, it could really use a refresh.

First, I want to sincerely thank the crews who came out last year. Their work made a noticeable difference, particularly with the rodent problem. The rat activity has significantly improved, and I truly appreciate those efforts. If possible, I would also like to request that ongoing pest control services continue to help prevent the problem from returning.

I've made a considerable effort to do my part by regularly picking up litter, removing debris, and blowing leaves into one area for collection. However, I'm only one neighbor and can only do so much.

This alley is unfortunately a common place where people dump trash, use drugs, and urinate, making it difficult for nearby residents to keep it clean. My neighbor directly behind me has lived here for over 40 years and used to help maintain the alley, but he's getting older and is no longer physically able to do as much as he once did.

Could you please:

Schedule an alley cleanup for this location.

Let me know how often residents can request routine alley maintenance.

Advise whether there are any neighborhood cleanup or recurring maintenance programs available for areas like ours.

We are trying to be good stewards of our neighborhood, but we could really use the City's continued partnership and support to keep the area clean, safe, and healthy.

Thank you for everything you've already done, and for your continued assistance.

Sincerely,

Tei Cauthen-Rivera
