Bill Summary

Nathan Christopher Vorachack
213 Roundhouse Ct
Baltimore, MD 21230
Account # 5747439919
Issued Date: July 24, 2026

Previous Balance		$264.80
Payments Received	June 25, 2026	-$124.90
	July 23, 2026	-$141.96
BGE Outstanding Balance		-$2.06
Electric		$181.53
Other charges and credits (See details)		$2.06
Total amount due by August 17, 2026		**$181.53**

Payment received after August 17, 2026 will incur a late charge.

A late payment charge is applied to the unpaid balance of your BGE charges. The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.

The amounts shown in the circles reflect charges from this bill period.

IMPORTANT INFORMATION ABOUT YOUR BILL

- The Maryland General Assembly established the Public Service Commission to regulate public service companies doing business in Maryland, to ensure their activities are consistent with the public interest. For information on how to participate in or observe a proceeding before the Public Service Commission, please visit the Public Service Commission's website.
- BGE has initiated a proceeding with the Maryland Public Service Commission which may impact distribution rates. For information, please see bge.com and psc.maryland.gov.
- **Moving?** To stop or transfer service, contact BGE at least 3 business days prior to your move date. You are responsible for all service at your present address until you notify us.
- The EmPower MD charge funds programs that can help you reduce your energy consumption and save you money. For more information, including how to participate, go to BGESmartEnergy.com.
- Even out your energy bills with Budget Billing-sign up at BGE.com/budget billing.

AN EXELON COMPANY

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility generated energy to increase supply.

Additional Information

2026 Emission Disclosure

BGE Calendar Year 2025 Emission Disclosure Label

The following environmental information is for BGE customers with Standard Offer Service, which is provided to those customers who have remained with BGE and who have not chosen a competitive electricity supplier. Power plants can generate electricity from a number of different fuel sources, resulting in different emissions. BGE reports fuel sources and emissions data to customers twice annually, allowing customers to compare data among the companies providing electricity service in Maryland.

This disclosure is required by the Maryland Public Service Commission.

Electricity Facts - PJM Regional Data

Electricity supplied from January 1, 2025 through December 31, 2025

Supply Mix

Natural Gas	43.18%
Nuclear	31.32%
Coal	16.53%
Oil	0.34 %
Fuel Cell	0.03 %
Renewable Energy	
**Wind*	3.75 %
**Solar*	2.12 %
**Hydroelectric*	0.95 %
**Solid Waste*	0.46 %
**Captured Methane Gas*	0.53 %
**Biomass*	0.17 %
**Waste Heat*	0.08 %
Total	100 %
**Renewable Energy Resources Subtotal*	8.06 %

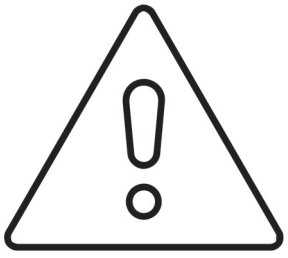

Air Emissions

PJM Emission Type	Lbs. per MWh	Percentage of Regional Average
Nitrogen Oxides (NO_x)	0.25	100.0 %
Sulfur Dioxide (SO_2)	0.31	100.0 %
Carbon Dioxide (CO_2)	742.5	100.0 %

CO2 is a "greenhouse gas" which may contribute to global climate change. SO2 and NOX released into the atmosphere react to form acid rain. Nitrogen Oxides also react to form ground level ozone, an unhealthful component of "smog".

EmPOWER MARYLAND

The EmPOWER Maryland charge funds programs that can help you reduce your energy consumption and greenhouse gas emissions, and save you money. Since the inception of the EmPOWER Maryland program in 2008, the programs have saved $14.5 billion on installed measures at a cost of $4.1billion. In addition to new program costs, this charge includes paying off the uncollected costs that were accrued over time by programs required by the EmPOWER statute and authorized by the Commission. In accordance with House Bill 864 the uncollected amounts will be fully paid by the end of 2032. For more information, including how to participate in these valuable programs go to **bgesmartenergy.com**.

Gas Safety

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **bge.com/ GasSafety**.
