EXHIBIT A-1

(Section 15)

15. ENVIRONMENTAL DISCLOSURE. The United States Environmental Protection Agency and state and local environmental protection and health departments have expressed concern over the presence of radon gas in homes. Prolonged exposure to high levels of indoor radon gas and/or methane may affect the health of residents. We have not and will not make any investigation to determine whether there is radon gas, methane, mold or other environmental pollutants in or affecting the Property, although such conditions may exist. We make no representation or warranty as to the presence or lack of radon gas, methane, mold, electromagnetic fields from power lines and appliances, environmental pollutants in the Home or otherwise affecting the Property, hazardous materials or other environmental conditions, or as to the general effect of any such conditions, except to the extent required by Governing Law. You further agree that this Agreement is not contingent on radon testing results or the presence of lack of radon gas or methane in the house. For additional information concerning radon gas, methane, mold or other environmental pollutants or hazardous materials, We suggest that You contact the United States Environmental Protection Agency and/or Your state or local environmental protection and health departments.

We shall have the right, at Our sole discretion, to include language in Your deed that transfers legal title to the Property from Us to You, which expressly disclaims any representations and/or warranties as to the presence of radon gas, methane, mold or other environmental pollutants in or affecting the Property. Any such language shall be binding on You and any future purchaser of the Property. The terms of this Section 15 shall survive Settlement.
