Damage Value Amount $	800

Narrative

Incident Description	Came home from the Baltimore Farmer's market around 10:30/11am, parked on the street as usual across from home. Took a nap (recovering from a surgery on Nov 3). Woke up, read a bit. Got ready to go to dinner, left the house and spotted car across from home with a bumper knocked off. Contacted neighbors at 616 and 620 highwood, neither heard or saw anything and do not have ring cameras. Reached out to 701 and 700 highwood drive, both have ring cameras, but nothing caught on footage, only time stamps before and after 12pm and when I went to knock and ask them. Knocked on 619, no answer. This is the second time my car has been hit parking near my home and my husband's car has also been hit. Neighbors at 620 remarked their car was also scraped on our street recently. People FLY through the intersection and ignore the stop signs. Will put a 311 report in to request speed bumps. So many kids in the neighborhood and they deserve to have drivers that know they're driving a 1ton hunk of metal.
