

Wolfson Children's Hospital

Community Health Plan Report

Year 3 Update — 2019-2021

Access to Care

In 2015, Baptist Health and Wolfson Children's Hospital established a goal to transform the health of children in our community. By improving access and increasing utilization of primary care services, we can improve health outcomes and reduce preventable ED visits and hospitalizations. Wolfson Children's Hospital aims to partner with community organizations in order to ensure that every child in Northeast Florida has healthcare.

Research indicates that school-based health centers are an effective mechanism for providing health care to children and youth due to convenient access. In a December 2013 survey of Duval County Public Schools (DCPS) administrators, 86% of respondents had some need or a great need for health services in their school. Services identified as needed included vision, dental and overall health services. In consultation with DCPS, Ribault High School and Ribault Middle School were identified as the first sites to initiate health centers based on need, proximity to each other, and the existing presence of mental health services in the schools.

Health services in Ribault High School and Ribault Middle School began in January of 2018. A community health center was also opened to increase access to all children under age 21 in the community. The health centers are operated by Sulzbacher Center, a Federally Qualified Health Center, with a pediatrician from UF Health Jacksonville. Full Service Schools will continue to provide mental health services and Wolfson will work in partnership with Full Service Schools and others to initiate additional programs and services aimed to impact the social determinants of health.

Funding for these services is provided by Baptist Health, grants, donors and Medicaid revenue.

Key Issues Identified in the Assessment:

- For families across Wolfson Children's Hospital service area, access due to transportation and waiting times can be a major barrier to family health.
- Child food insecurity is high within Wolfson Children's Hospital service area.

Children with Health Insurance (2016)		Primary Care Provider Rate (2015)		Child Food Insecurity Rate (2015)		Food insecure children likely ineligible for assistance (2015)	
Florida	93.8%	Florida	72.7	Florida	22.7%	Florida	29.0%
Baker	NA	Baker	43.8	Baker	23.8%	Baker	30.0%
Clay	94.6%	Clay	56.9	Clay	19.7%	Clay	39.9%
Duval	95.0%	Duval	85.5	Duval	23.2%	Duval	29.0%
Nassau	94.9%	Nassau	45.9	Nassau	22.9%	Nassau	36.0%
St. Johns	97.1%	St. Johns	90.5	St. Johns	18.8%	St. Johns	52.0%

Goal	Strategies	Metrics/What we are measuring	Partnering/External Organizations	Results
Every Child in Northeast Florida has Health Care	Continue operating health centers in schools in the Ribault and Raines feeder pattern in Duval County.	<ul style="list-style-type: none"> Number of visits Student health as measured through surveys 	<ul style="list-style-type: none"> Department of Health – Duval Duval County Public Schools Full Service Schools Sulzbacher Center UF Health Jacksonville 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> Opened Wolfson Children’s School Health Centers on the Ribault High and Ribault Middle School campuses. 583 appointments provided between October 1st, 2018 and September 2019 R.A.W. (Ribault Access & Wellness) the student advisory committee for the Wolfson Children’s School Based Health at Ribault High School was established during this time. Its mission is to promote the health center, healthy living and well-being Ribault Middle Health & Wellness Club (Healthtastic) is a middle school group that was established during this time to promote healthy living. 				<p>materials and supplies needed for patient.</p> <ul style="list-style-type: none"> ○ HRA families were contacted quarterly for follow ups, and helped with insurance and scheduling appointments for allergies or pulmonology. ○ PCP provider and school nurse were notified of enrollment of high risk patient; support and resources provided to school. ● Assisted families with additional community resources, such as rent/utility, food, and legal assistance. ● Ongoing support and resources for school health nurses for Baker, Clay, Duval, Nassau, and St. John's counties.
	Partner with Children's Home Society, Clay Public Schools and Azalea Health to assess the feasibility of offering health services in the Clay County Community Schools and developing a plan if determined to be feasible.	<ul style="list-style-type: none"> ● Feasibility of offering health services in Wilkinson Junior High and Keystone Heights Junior/Senior High 	<ul style="list-style-type: none"> ● Azalea Health ● Children's Home Society Buckner Division ● Clay County Public Schools 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> ● Actively participated in the Wilkinson Junior High School Community Partnership School Committee ● Application assistance event at Wilkinson Junior High School planned for February <p>Year 2 (October 1, 2019 – September 30, 2020)</p> <ul style="list-style-type: none"> ● Actively participated in the Wilkinson Junior High School Community Partnership School Committee ● Application assistance and enrollment events at Wilkinson Junior High School took place January 30th, 2019 and February 10th, 2020. Seven families were helped during the events ● Provided access to free telehealth services with 5 appointments being used in Clay county and 3 in Nassau county

Goal	Strategies	Metrics/What we are measuring	Partnering/External Organizations	Results
				Year 3 (October 1, 2020 – September 30, 2021) <ul style="list-style-type: none"> Actively participated in the Wilkinson Junior High School Community Partnership School Executive and Telehealth Committees Application assistance and enrollment information were provided to Wilkinson Junior High School on August 5th, 2021. 100 individuals were talked to and provided enrollment information during the events.

Behavioral Health

Baptist Health has made behavioral health services a priority providing comprehensive inpatient and outpatient services. Mental Health was a priority health need addressed by Wolfson Children's Hospital in the last three-year CHNA cycle, and the focus on this health need continues into this CHNA cycle as behavioral health needs of children and youth in the Wolfson Children's Hospital service area continue to increase.

Key Issues Identified in the Assessment:

- Access to mental health providers for children and families in the region served by Wolfson Children's Hospital is a barrier
- The opioid epidemic impacts the health of children in both the social environment and family life as well as their ability to access health care

Duval Middle School – Suicide Youth Risk Behavior Survey	
Ever seriously thought about killing themselves	25.9%
Ever made a plan about how they would kill themselves	21.7%
Ever tried to kill themselves	16.8%

Duval High School – Suicide Youth Risk Behavior Survey		Florida
Seriously considered attempting suicide	20.8%	13.8%
Made a serious plan to attempt suicide	18.5%	10.7%
Attempted Suicide	18.8%	7.6%
Felt hopeless or sad almost every day for two weeks in a row	35.1%	27.8%

Goal	Strategies	Metrics/What we are measuring	Partnering/External Organizations	Results
Increase access to behavioral health services.	Continue offering Mental Health First Aid, a proven best practice to reduce stigma of mental illness which increases the likelihood that people will access care.	<ul style="list-style-type: none"> • 3,000 people trained by 2021 • Evaluate participant satisfaction 	<ul style="list-style-type: none"> • Baptist Health Faith Partners • Duval County Public High Schools • Florida's First Coast YMCA • Jacksonville Nonprofit Hospital Partnership • National Council for Behavioral Health 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> • 528 people were trained October 1, 2018 – January 1, 2019 • 1,989 people were trained January 2, 2019 – September 30, 2019 <ul style="list-style-type: none"> ○ 98% of participants rated high satisfaction with training quality ○ 96% of participants rated high satisfaction with training usefulness ○ 99% of participants would recommend the training to others • Wolfson Children's Hospital offered 7 Youth Mental Health First Aid classes. The classes educated 79 community participants <p>Year 2 (October 1, 2019 – September 30, 2020)</p> <ul style="list-style-type: none"> • 1,050 people were trained October 1, 2019 – September 30, 2020 <ul style="list-style-type: none"> ○ 98% of participants rated high satisfaction with training quality ○ 99% of participants rated high satisfaction with training usefulness • 95% of participants would recommend the training to others • 4 classes offered • Educated a total of 64 community participants, including DCPS and Fresh Ministries employees, UNF nursing students, and other community members • The overall impression of the course is 4.84 out of 5 • 100% of the participants would recommend the course to others <p>Year 3 (October 1, 2020 – September 30, 2021)</p> <ul style="list-style-type: none"> • 15 Youth Mental Health First Aid classes were offered <ul style="list-style-type: none"> ○ 221 people were trained October 1, 2020 – September 30, 2021

Goal	Strategies	Metrics/What we are measuring	Partnering/External Organizations	Results

Increase access to behavioral health services.	Provide funding to innovative efforts to reduce stigma, advocate for increased services and increase access to care.	<ul style="list-style-type: none"> Evaluate the impact of each initiative according to its focus 	<ul style="list-style-type: none"> The Partnership for Mental Health: A project of Baptist Health and the Delores Barr Weaver Fund at The Community Foundation for Northeast Florida 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> The fund was established with \$2.2m. As of December 2019, 14 grants were made for a total of approximately \$900,000 <p>Year 2 (October 1, 2019 – September 30, 2020)</p> <ul style="list-style-type: none"> As of December 2020, 29 grants were made for a total of approximately \$1,452,000 With funding from Baptist to community behavioral health organizations, 359 youth received mental health services <p>Year 3 (October 1, 2020 – September 30, 2021)</p> <ul style="list-style-type: none"> As of December 2021, 60 grants were made to 49 organizations for a total of approximately \$2,407,874.
	Provide screenings of The Ripple Effect to reduce stigma, the screenings will include a local resource guide.	<ul style="list-style-type: none"> Number of participants at screenings 	<ul style="list-style-type: none"> First Coast YMCA 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> Wolfson Children’s Hospital conducted two screenings of The Ripple Effect. A total of 26 individuals attended the screenings. The main purpose of the screenings was to enhance suicide prevention efforts in the communities where it was shown <p>Year 2 (October 1, 2019 – September 30, 2020)</p> <ul style="list-style-type: none"> Wolfson Children’s Hospital did not conduct screenings of The Ripple Effect. <p>Year 3 (October 1, 2020 – September 30, 2021)</p> <ul style="list-style-type: none"> Wolfson Children’s Hospital did not conduct screenings of The Ripple Effect due to COVID-19.

Maternal, Fetal and Infant Health

Each year, approximately 17,500 babies are born in Northeast Florida. The health and wellbeing of the mothers, fathers and their babies is important to Baptist Health and Wolfson Children's Hospital. This health need continues to be a focus for Wolfson Children's Hospital due to the significant number of adverse outcomes in the hospital's service area.

Key Issues Identified in the Assessment:

- High rates of adverse outcomes in service area, such as preterm births, babies with low birth weight, infant mortality
- Large proportion of mothers do not receive early prenatal care
- Adverse birth outcomes are prevalent as a result of substance abuse among pregnant women
- Based on secondary data indicators, Baker and Duval counties have the poorest health outcomes and health behaviors related to Maternal, Fetal and Infant health compared to the area served by Wolfson Children's Hospital

Infant Mortality Rate	
Florida	6.1
Baker	6.7
Clay	5.5
Duval	8.3
Nassau	5.1
St. Johns	5.4

Goal	Strategies	Metrics/What we are measuring	Partnering/External Organizations	Results
Decrease the number of preterm births, babies with low birth weight and infant mortality.	Partner with the Northeast Florida Healthy Start Coalition to study the cause of every infant death in Northeast Florida in a 12-month period.	<ul style="list-style-type: none"> • Causes for infant deaths in Northeast Florida 	<ul style="list-style-type: none"> • Florida Blue • Jacksonville University • Northeast Florida Healthy Start Coalition • UF Health Jacksonville 	<p>Year 1 (October 1, 2018 – September 30, 2019)</p> <ul style="list-style-type: none"> • Actively participated in Fetal Infant Mortality Review meetings • Provided funding for an in-depth review of all 2019 infant deaths to develop a strategy to end infant mortality <p>Year 2 (October 1, 2019 – September 30, 2020)</p> <ul style="list-style-type: none"> • Actively participated in Fetal Infant Mortality Review meetings • Provided funding for an in-depth review of all 2020 infant deaths resulting in a strategic plan to reduce infant mortality in Duval County • Provided funding to implement community health workers in OB offices to increase risk-screening completion rates, a key part of the strategic plan to reduce infant mortality in Duval
