OMEXCO
Fine Belgian Wallcoverings

*« Created by nature,
crafted by hand. »*

ATELIER

*An eclectic offering of couture
and contemporary wallcoverings*

Authentic craftsmanship embodies this bold collection designed by the creative minds of Omexco.

A tactile tribute to the importance of handmade craft in interior design.

Reflecting our fervent desire for a creative renaissance in this increasingly digital world.

A fascinating creative journey that reinterprets the legacy of handcraft passed between generations of artisans.

Hand-spun fantasy yarns intertwined into chunky weaves. Recycled sari silk fabrics twisted into ribbons and woven with abaca stem. Handmade paper sculpted into mural artwork. Appliquéd botanical fibres. Striking patchworks of woven natural raffia. Together they burst into this eclectic collection of couture and contemporary wallcoverings.

Destined for luxury interiors, turning every wall into a wondrous work of art, the ATELIER collection provides our homes with the perfect wallcovering for giving voice to our creativity.
