about us

BOTTON + GARDINER IS SYNONYMOUS WITH SMART FURNITURE. FOR OVER 27 YEARS WE'VE BEEN DESIGNING AND MANUFACTURING COMMERCIAL COLLECTIONS THAT BRING PUBLIC SPACES TO LIFE, IN AUSTRALIA AND AROUND THE WORLD.

We love what we do.

the connect collection

TRANSFORM ANY SPACE INTO A SOCIAL HUB WITH SUSTAINABLE, MODULAR SEATING THAT WORKS INSIDE AND OUT.

waste not, want not

WE'RE CONSCIOUS OF OUR CARBON FOOTPRINT. SUSTAINABILITY IS EMBEDDED IN OUR PROCESSES AND MATERIAL CHOICES, FROM DESIGN TO DISPOSAL.

+ certified timbers

Blackbutt and Spotted Gum are locally sourced and certified via the Program for the Endorsement of Forest Certification (PEFC), while Merbau is primarily sourced from responsibly managed regrowth forests and certified via the Forest Stewardship Council (FSC).

+ local steel

Our galvanised and stainless-steel components are made from locally sourced steel that contain high recycled content.

+ low VOCs

Unlike traditional solvent-based paint, powder-coating produces very low VOCs. That means less risk for people and our planet.

+ mindful manufacturing

Our in-house manufacturing sorts and responsibly disposes of waste materials - that's metals, timbers, cardboard, paints, solvents, and airborne waste.

shape your space

CONNECT CATERS TO DIVERSE ENVIRONMENTS. THE MODULAR AND CUSTOMISABLE DESIGN MEANS YOU CAN CREATE A UNIQUE FEATURE IN THE TRICKIEST OF SPACES.

+ simple to complex configurations

CONNECT offers a range of geometric shapes and interlocking elements. Choose from circular, oblong, or square seating designs with integrated urban planters and tiered heights.

+ social seating

CONNECT allows you to create multidirectional seating to encourage social interaction, while increasing comfort through the addition of arm and backrests.

+ customisable elements

CONNECT's hundreds of configurations become truly unique with the addition of customised integrated lighting, power, and shading options.

good looks made easy

SLEEK CURVES, TEXTURED MATERIALS, AND CONCEALED FIXINGS - CONNECT IS THE FULL PACKAGE.

+ eye-catching colours

Choose from twenty-six different powder-coat options: from subtle signature shades, earthy tones, and metallic textures, right through to the vibrancy of Bondi Blue and Lobster Red.

+ natural timbers

Select grade Blackbutt, Spotted Gum and Merbau minimise knots and scars, while bullnose edging complements the curved seating design.

+ perforated designs

Draw the eye by perforating the uniform metallic surface. Precision lasers can cut through the sheeting to leave a beautiful, smooth-edged design or logo.

stand the test of time

CONNECT IS A LONG-TERM INVESTMENT. THE RIGHT CHOICE OF MATERIALS AND EASY MAINTENANCE CREATES SEATING THAT COULD LAST LONGER THAN THE SPACE IT'S DESIGNED FOR.

+ hard-wearing wood

Hardwood's tight grains and high-density result in superior durability. We've built on this by offering 42mm thick battens finished in three coats of oil. That means minimal flexing and maximum UV resistance.

+ sturdy steel

We use galvanised and stainless steel because it inherently increases strength and corrosion resistance, even in areas prone to moisture and salt. And that's before we add the UV resistance of the powder-coat top layer.

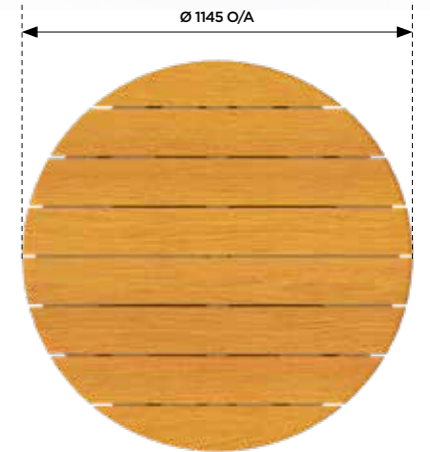

+ minimal maintenance

The highly durable elements make it easy to clean with a cloth or low-pressure hose. If the worst does come to the worst, removable snake eye security bolts make it simple for the right person to replace individual components.
