Product info

SORRENTO-TRUSS PICNIC SETTING

- The Sorrento-Truss Cantilevered table is designed to work with the Sorrento Bench + Seat for the urban picnic setting (per graphic to the right)
- The Sorrento Table is a great coordinating table to be used with individual stools. The location and size of the Sorrento leg frames make it unsuitable for pairing with the Sorrento seating due to poor access.

bottom + gardiner

key features

5yrs warranty

FINISHES

- The materials chosen are designed to be lighter and easier to install than concrete but still keeps that substantial feel
- Our standard powdercoats are UV resistant and outdoor suitable (including our range of bright colours).
- Touch up cans available for easy maintenance

FRAMES

- The powdercoated aluminium frames won't corrode even if the powdercoated finish gets scratched

FLAT ENDS

- Flat ends allow modules to be butted together. This gives flexibility to cluster and reconfigure to suit install location

FIXING

- Easy to access + service fixing tabs tucked away in the frame for a clean look
