Manly
LITTER BIN

Ultra functional, the iconic Manly bin was designed with shopping centres front of mind. The hygienic stainless steel lid is easy to wipe over, the spun form has softened edges for safety, and the gently sloped chute ensures waste doesn't accumulate on the top of the bin. Add non-scratching floor protectors, skirting for cleaning machines and a bump rail set at the perfect height to protect from trolleys and it's clear to see why Manly has been used in shopping centres for decades. Manly is your set and forget solution.

+ SPECIFICATIONS

CAPACITY	Single: 90L polyethylene liner | Double: 2x 90L polyethylene liners
FINISHES	Body: laminate, or powdercoated galvanised steel Lid: spun stainless steel, satin polished Bump rail and skirting: stainless steel with floor protectors Laminate colours: choose from our preselected Laminex colours or custom specify your own Powdercoat colours: select from Botton + Gardiner's standard range or custom specify a colour
FEATURES	Manage recycling by splitting your waste streams | If you want dual recycling and garbage waste collection we recommend having one convex 100mm chute to visually cue to customers the recycling side at point of disposal | Double size has a folding hinged lid for easy removal of the liners | Bright vinyl signage on the double bins is easily recognisable by customers and saves labour in sorting waste | Vinyl decals can be removed and replaced in future for changes to waste streams | Durable spun stainless steel lid for hard use environments with softened edges for safety
OPTIONS	Opt to have both chutes as concave (with 200mm dia openings) if you require double general waste channels | Customise the standard vinyl decals to your brand colours and waste channels | Opt to add vinyl decals to your single bins for extra branding or designating a bin as recycling | Engraved enamel fill signage is a hard wearing, long term option for heavy traffic areas
