PUBLIC SPACE FURNITURE

Avoca

Litter Bin

Brother to the highly popular Mandalay, the new reuleaux triangle shaped Avoca Litter Bin has a friendly and welcoming demeanour that gives it a relaxed fit with any space. Equally at home indoors or outdoors, Avoca is particularly suited to the contemporary needs of shopping centres, universities, schools, and high traffic public spaces. The shape cleverly allows for single, dual or triple waste receptacles to be concealed in the same compact sized body whilst clear signage allows for easy recognition and contribution by customers to waste sorting. The Avoca Litter Bin is a warm and inviting addition to any project.
