

# Lenox PVC-free

Inspired by building architecture, Lenox is a dynamic pattern composed of shapes in varying scales, tones, and hints of metallics. The overlapping abstracted motifs foster a sense of movement and provide an untraditional approach to a city scene. The palette offers 12-skus including modern neutrals and bold, corporate-driven accents. Type II 20 oz 52/54"; Osnaburg backing; reverse hang/random match Installation.
