

# SMART WATCH

The BeHomeSafe SMART Watch serves as an Android mobile phone, activity tracker, automatic fall detection device and GPS-enabled wearable. Our watch will automatically notify registered Circle Of Care members of falls and wandering outside of defined boundaries. It also has voice-enabled answering and works wherever cell phone service exists. *No need to pair with a phone or WiFi.*

- SIM card covered by the subscription fee - No need to be tethered to a smart phone!
- Phone number with auto answer - Use as a phone!
- Emergency help button
