

Until now...

Introducing Walabot HOME

The monitoring system
that tracks your health
and detects falls.

Then within seconds,
automatically alerts
monitoring services or
designated emergency
contacts for help.

Allowing people
to age in place,
with dignity.

No cameras
means that privacy
is respected.

No wearables
are required to bind
and tether the user.

No buttons
to press because
its automatic.

No worries,
just set it and
forget it.
