

BY THE DESIGNERS THAT BROUGHT YOU KEELER & BELWITH KEELER

IN-HOUSE DESIGN. ALWAYS. BACKED BY 130 YEARS OF RICH DESIGN HERITAGE.

Hickory Hardware® is a brand by Belwith Keeler Décor Solutions®. The roots of the company run deep, beginning with the birth of a small foundry in Michigan in 1893. From the humble beginnings of the Keeler Brass Company®, international corporate ownership and multiple mergers, we now emerge as Belwith Keeler Décor Solutions, a privately owned and operated company.

Belwith Keeler Décor Solutions has hundreds of years of staff experience, a living library of designs dating back to 1900, and a passion to develop unique, inspired hardware. This positions us as the industry leader in kitchen cabinet, architectural, and furniture hardware.

Our commitment to provide a variety of trendsetting styles and finishes is proven through our extensive assortment of products, unique and convenient packaging,

as well as evolving displays and planograms to match current trends. Every step in product development is crucial and we take each step to the next level to ensure we provide the best and freshest products.

The Hickory Hardware brand reflects our vision to offer the very best products and service to customers today, while providing continuous improvement in our product offerings and service for tomorrow.

FEATURING | Midway Collection

QUICK HARDWARE GUIDE

1. Knobs or Pulls?

Mix and match knobs and pulls to fit your style and compliment your cabinetry. Go for consistency with all pulls or all knobs, or mix it up by utilizing both!

2. Scale & Proportion

Drawers over 24" wide should have either 2 knobs, 2 small pulls, or 1 large pull for visual balance. If a drawer is under 24" wide, only a single knob or pull is needed.

Over 24"

Under 24"

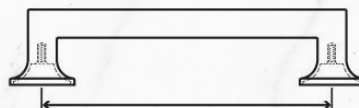

3. Count

Add up how many knobs and pulls you'll need for your project. Be sure to note product numbers and finishes. Stay organized by creating lists for different rooms and needs.

4. Measure

For pulls, measure the center-to-center of each screw hole to determine what size pull you'll need without having to patch an existing hole.

C/C: Center-to-Center Screw Distance

5. Clearances

Check the "P" (Projection) measurements on your selections. This will help ensure they don't interfere with the function of other doors or drawers. Consider ones that swing or open towards one another.

P: Projection

6. Questions?

UNIQUE FEATURES

Knob Spurs

A number of Hickory Hardware knob designs feature a spur, which stabilizes knob positioning and prevents unsightly rotation after installation.

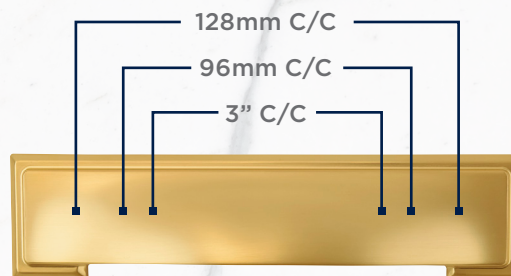

This feature is highly critical to maintain desired orientation of square, rectangular, oval, and atypical-shaped knobs.

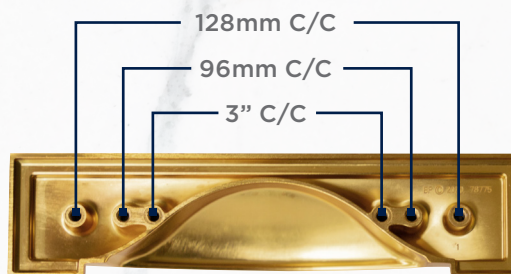

Variable Mounting Points

Several hardware designs feature multiple C/C (Center-to-Center) throughout this catalog. That means there are various mounting points on the same piece of hardware that may be utilized.

The example on the right features multiple C/C, including 3", 96mm, and 128mm. This pull could be installed to any pre-drilled holes with the aforementioned spacing; useful if you have pre-existing holes already and would not need to drill new ones to retrofit this piece.

APPLIANCE PULLS

Appliance Pulls are great to scale to oversized cabinet fronts. Maintain proportion and style. Appliance Pulls may also be used on doors, pantries, closets, storage drawers, furniture pieces, and more.

DRAWER SLIDES

Invest in soft-close drawer slides or go simple. With center, side, and bottom mount drawer slides in a range of lengths, we offer solutions for various drawer types and weight bearing applications.

WHAT LENGTH?

For replacements, measure your existing slide.

For new installations, measure your drawer and cabinet.

SLIDE LENGTH	FITS DRAWER LENGTHS	FITS CABINET DEPTHS
12"	10 5/8" to 12 1/2"	13" to 14 1/2"
14"	12 5/8" to 14 1/2"	15" to 16 1/2"
16"	14 5/8" to 16 1/2"	17" to 18 1/2"
18"	16 5/8" to 18 1/2"	19" to 20 1/2"
20"	18 5/8" to 20 1/2"	21" to 22 1/2"
22"	20 5/8" to 22 1/2"	23" to 24 1/2"
24"	22 5/8" to 24 1/2"	25" to 25 1/2"

Note: See model instructions for exact measurements.

WEIGHT CAPACITY

Use **Center Mount** drawer slides or light duty side mount slides for lower weight capacity.

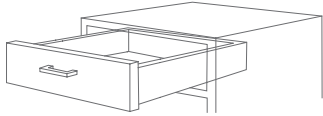

Heavy loads, such as large pots, require slides with a weight capacity of 50 - 100lbs.

Side Mount ball bearing slides are made for this application.

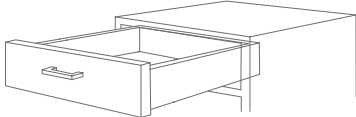

TRAVEL

Travel/Extension indicates how far the drawer comes out of the cabinet.

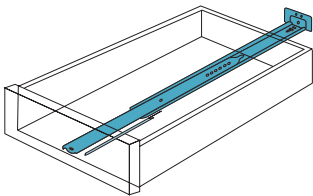

With **3/4 Extension**, the drawer opens 3/4 of the slide

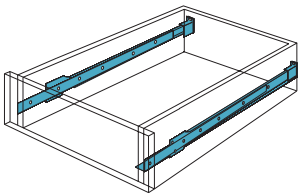

With **Full Extension**, the drawer opens the full length of the slide

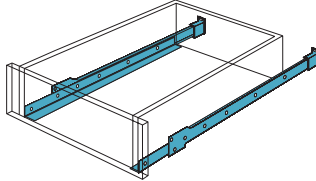

DRAWER SLIDE MOUNTING TYPES

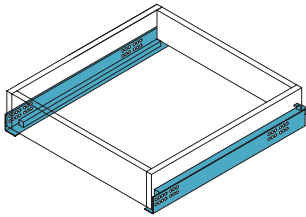

Center Mount drawer slides mount to the drawer's bottom along the center. They are concealed when the drawer is extended and are ideal for small, lightweight drawers. Center Mount drawer slides are best for use on face-frame cabinets.

Side Mount drawer slides attach to the side of the drawer and inner cabinet. They are visible when the drawer is extended and tend to support more weight. Side Mount drawer slides are best for use on frameless cabinets.

Bottom Mount drawer slides mount to the bottom or bottom edges of the drawer and to the sides of the inner cabinet. Bottom Mount drawer slides are a good option if you are looking for something with more weight capacity.

Undermount drawer slides mount to underside of drawer and side of inner cabinet. They have the highest build quality for high load requirements and offer degrees of adjustability for fit and function.

DRAWER SLIDE MOVEMENT TYPES

Ball-Bearing Rollers offer a smooth glide for your drawer. The bearings are hardened spherical balls that greatly reduce the friction between moving parts.

Glide Rollers area of contact is a wheel along a line instead of a ball, which distributes the load weight over a large area.

Self Closing drawer self-closes during the last few inches of travel

Soft Close drawers self-closes softly during the last few inches, prevents drawer from slamming

Free Travel drawers stay in whatever position it is left

CENTER MOUNT DRAWER SLIDE - SEARCH P1175

Lengths Available:

Cut to any length
up to 23-1/2" deep

Features:

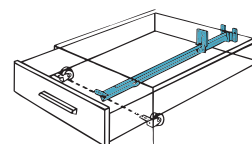

- Fits most drawers
- Bracket Slide
- 25lb Load Capacity
- Roller mounted to back of drawer and each side of cabinet

Mounting Type:

Bottom, Center Mount

Travel:

3/4 extension

CENTER MOUNT DRAWER SLIDE - SEARCH P1029

Lengths Available:

12", 14", 16", 18", 20",
22", 24"

Features:

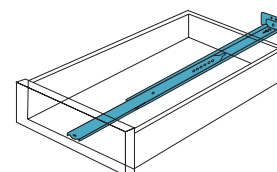

- Precision Ball Bearing
- Ultimate smoothness
- Adaptable to cabinets with or without cabinet supports
- 35lb load capacity

Mounting Type:

Bottom, Center Mount

Travel:

3/4 extension

BOTTOM MOUNT DRAWER SLIDE - SEARCH P1700

Lengths Available:

12", 14", 16", 18", 20",
22", 24"

Features:

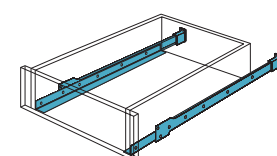

- Smooth Glide Roller
- 75lb load capacity
- Self-closing feature
- Durable epoxy finish
- Heavy Duty
- Single capture roller for maximum stability

Mounting Type:

Bottom Mount

Travel:

3/4 extension

UNDERMOUNT DRAWER SLIDE - SEARCH HH075213 & HH075214

Lengths Available:

18" HH075213
21" HH075214

Features:

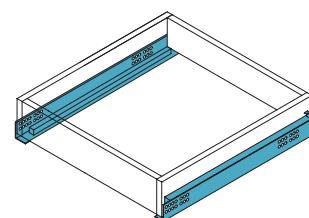

- Precision Ball Bearing construction for smooth glide operation
- 75lb load capacity
- Heavy duty steel
- Allows access to entire drawer, shelf, or pull-out
- Ideal for pots and pans
- Enhanced adjustability for best fit and soft-close drawer operation

Mounting Type:

Undermount

Travel:

Full extension

SIDE MOUNT DRAWER SLIDE - SEARCH P1750

Lengths Available:

12", 14", 16", 18", 20",
22", 24"

Features:

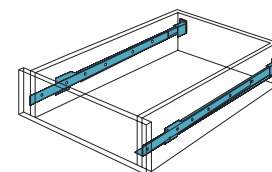

- Smooth Glide Roller
- 75lb load capacity
- Self-closing feature
- Durable epoxy finish
- For shallow drawers
- Single captive roller for maximum stability

Mounting Type:

Side Mount

Travel:

3/4 extension

SIDE MOUNT DRAWER SLIDE - SEARCH P1050 OR P1055 FOR SOFT CLOSE

Lengths Available:

12", 14", 16", 18", 20",
22", 24"

Features:

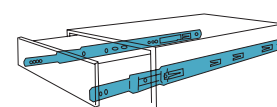

- Precision Ball Bearing construction for smooth glide operation
- 100lb load capacity
- Heavy duty steel
- Allows access to entire drawer, shelf, or pull-out
- Ideal for pots and pans

Mounting Type:

Side Mount

Travel:

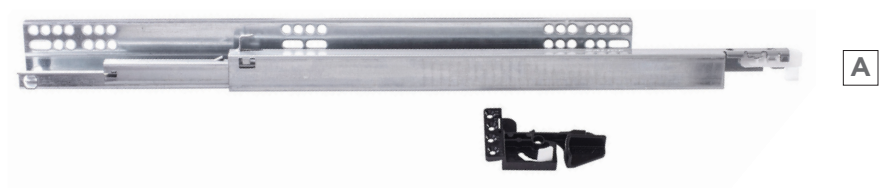

Full extension

HINGES & CATCHES

Whether you need hinges and catches for replacement, or entirely new installs, we offer a wide selection of product suitable for most types of cabinets. Follow along in our guides within the next few pages to help you decide what you'll need.

HINGE REPLACEMENT

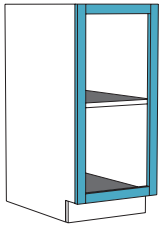

For replacements, choose a hinge that most closely matches or is the exact same model from the current hinge. New holes in the cabinet may be required if the model is not the same.

HOW MANY HINGES?

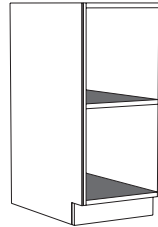

Follow this general guideline for an idea of how many hinges you'll need for a particular sized door:

- 2 Hinges: up to 35" door height 20 lbs.
- 3 Hinges: up to 63" door height 20-40 lbs.
- 4 Hinges: up to 78" door height 40-60 lbs.
- 5 Hinges: up to 94" door height 60-80 lbs.

WHAT TYPE OF CABINET DO YOU HAVE?

Face Frame: The cabinet face is constructed of vertical "stiles" and horizontal "rails" that reinforce the cabinet structure and provide mounting support for doors and drawers.

Frameless: The cabinet is constructed without any face framing. Doors and drawers are mounted to the sides of the cabinet. Fully concealed hinges are used for the doors.

WHAT TYPE OF DOOR DO YOU HAVE?

Flush or Full Inset Door

Sits completely within cabinet opening, has no edges to grab onto and needs hardware to pull open. Ideally used with face frame cabinets.

Partial Inset Door

Sits partially in cabinet opening and partially across face of cabinet.

Partial Overlay

Must be attached to a framed cabinetry. Cabinet doors sit slightly apart from one another, revealing a piece of the face frame.

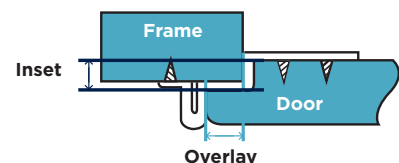

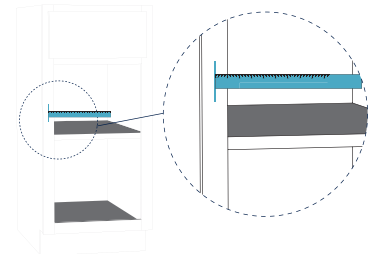

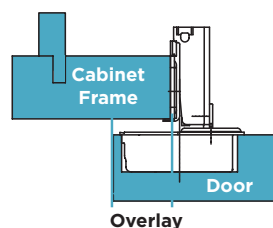

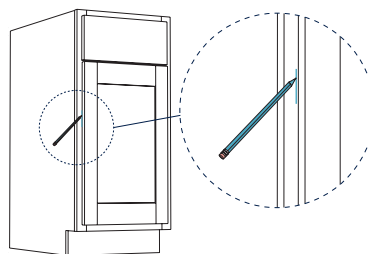

Full Overlay

Sits fully across face of cabinet with no reveal.

MEASURING OVERLAY

1. Close Cabinet Door.
2. Use pencil and make a small mark on the cabinet frame directly against the hinged side of the door.
3. Open the cabinet door (or remove the door) and measure from the pencil mark to the opening of the cabinet.

CHOOSE YOUR HINGE

Do you want decorative (surface), purely functional (concealed) or both (semi-concealed)? Now that you know the type of cabinet & door you have, with an overlay measurement you can choose from a variety of hinge styles to fit your needs. The hinge you choose may have more than one trait.

VISIBILITY

Surface: The hinge mounting is visible, mounted on the outside of the cabinet.

Concealed: The hinge is hidden, mounted on the inside of the cabinet. Sometimes called a Euro (European) hinge.

Semi-Concealed: A part of the hinge is showing, typically the cabinet wing is exposed and the door wing is concealed.

CLOSING

Soft Closing: Door self closes softly during the last few inches, prevents door from slamming.

Self Closing: Door self closes during the last few inches.

Free Swinging: Door stays in position that it's left in, no built-in closing mechanism, door prone to slamming.

WRAP

Full Wrap: Wraps around three sides of the cabinet body.

Partial Wrap: Wraps around two sides of the cabinet body.

FLUSH OR INSET

Flush: Hinge door wing mounts straight across back of door.

Inset: Hinge door wing is shaped to fit 3/8" rabbet on doors for partial inset applications.

CONCEALED, SOFT CLOSE

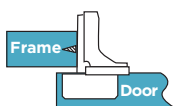

Concealed: The hinge is hidden, mounted on the inside of the cabinet.

Soft Close: Door self closes softly during the last few inches, prevents door from slamming.

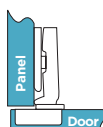

Face Frame

- 106° Opening
- With 1/2", 3/4", 1-1/4" and 1-3/8" Overlays
- Polished Nickel Finish
- HH74716-14 Shown

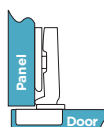

Frameless

- 105° Opening, Full Overlay
- Titanium Finish
- HH74723-TT Shown

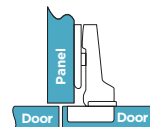

Frameless

- 105° Opening, Full Overlay
- Polished Nickel Finish
- HH74720-14 Shown

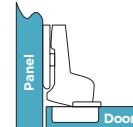

Frameless

- 105° Opening, Half Overlay
- Polished Nickel Finish
- HH74721-14 Shown

Frameless

- 105° Opening, Inset
- Polished Nickel Finish
- HH74722-14 Shown

CONCEALED, SELF-CLOSING

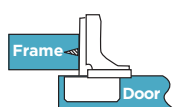

Concealed: The hinge is hidden, mounted on the inside of the cabinet.

Self Closing: Door self closes during the last few inches.

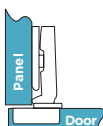

Face Frame

- With 1/2", 3/4", 1-1/4" and 1-3/8" Overlays
- Polished Nickel Finish
- P5124-14 Shown

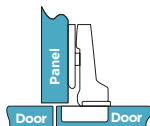

Frameless

- Full Overlay
- Polished Nickel Finish
- P5105-14 Shown

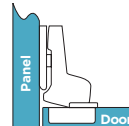

Frameless

- Half Overlay
- Polished Nickel Finish
- P5111-14 Shown

Frameless

- Inset
- Polished Nickel Finish
- P5115-14 Shown

Frameless

- 90° Opening
- Frameless, or Inset
- Self-closing
- Cadmium Finish
- P6992-C Shown
- All frameless configurations shown left are possible.

HINGE TYPES

Surface Mount Face Frame Hinges: The hinge mounting is visible on the outside of the cabinet and the door sits on top of the frame.

Free Swinging

- 3/8" Inset
- Face Frame
- Without Spring
- Semi-concealed

Part Number:
P140

Free Swinging

- Face Frame
- Without Spring
- Semi-concealed

Part Number:
P139

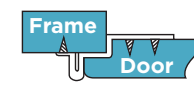

Self-Closing

- 3/8" Inset
- Face Frame
- Semi-concealed

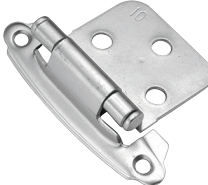

Part Numbers:
P143, P243, P295

Self-Closing

- Face Frame
- Semi-concealed

Part Numbers:
P144, P244 & P296

Surface Mount Flush Frame Hinges: The hinge mounting is visible on the outside of the cabinet and the door sits flush within the frame.

Surface Face Mounted

- Flush / Full Inset Doors
- Fully exposed

Part Number:
P106

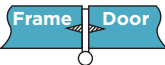

Self Mortise Hinges: The hinge mounting is hidden in the door frame or jamb. Only the knuckle and pin are visible.

Self Mortised

- Flush / Full Inset Doors
- Semi-concealed

Part Numbers:
P8293, P8294

HINGE TYPES

Semi-Concealed Wrap: A part of the hinge is showing, typically the cabinet wing is exposed and the door wing is concealed. Wraps around cabinet body.

Semi-Concealed

- Partial Wrap
- 1/4" Overlay
- 3/8" Inset

Part Number:

P61030F

Semi-Concealed

- Partial Wrap
- 1/4" Overlay

Part Number:

P60010F

Semi-Concealed

- Full Wrap
- 1/2" Overlay

Part Number:

Semi-Concealed

- Partial Wrap
- 1/2" Overlay

Part Number:

P2710F

Demountable: Demountable hinges are made for those who want to remove a cabinet door frequently, without having to unscrew and re-screw the hinges.

Single Demountable: Allows the door to be removed, leaving hinges attached to the cabinet. Hinges are mounted with screws to face of cabinet and special incisions into the door.

Single Demountable

- Self-Closing
- 1/2" Overlay

Part Number:

P5313

Double Demountable: Allows the door to be removed and hinges as well. Hinges are mounted without screws, using incisions into both door and cabinet face frame.

Double Demountable

- Self-Closing
- 1/4" Overlay
- 3/8" Inset

Part Number:

P5312

Double Demountable

- Self-Closing
- 1/4" & 1/2" Overlay

Part Numbers:

P5311 & P5310

A man with glasses and a grey shirt is using a long yellow level to install wooden cabinets. He is standing in a room with white walls and a window in the background. The cabinets are made of light-colored wood and have drawers. The man is holding the level against the top of the cabinets. The image is split into two parts: the left part is a dark blue overlay with text, and the right part shows the man working on the cabinets.

ACCESSORIES

We have mounting kits and alignment guides to help you install knobs, pulls, and hinges just right. Better to measure twice and drill once. Spacers are also available for face frame Euro hinges.
