# WELCOME

***We have great pleasure in welcoming past and prospective buyers to our 8th Angus Elite Black & Red sale. What an exciting time it is to be breeding Angus cattle!***

The Angus breed in South Africa is growing in popularity and thus following the Global trend as the biggest breed in the World by numbers. Demand for the Angus Breed continues to grow as cow inventories in South Africa are at an historical low.

This trend is largely driven by the quality of the Angus carcass on the block without having to enhance the product with growth stimulants. This trend is huge and growing exponentially as the awareness for health and the dangers of hormones and growth promotors on one's health is now undisputed. We are acutely aware of the dangers that the Covid 19 virus poses to everyone and the dangers of

contamination at a sales venue. To this end we will be creating a sales environment where social distancing can be maintained and have contracted the services of Livestock Station to run an on-line auction in parallel to the on-farm auction. This further allows a buyer to participate in the auction process from the comfort of their home. Further details of the practical details of joining the virtual auction follows on the next page.

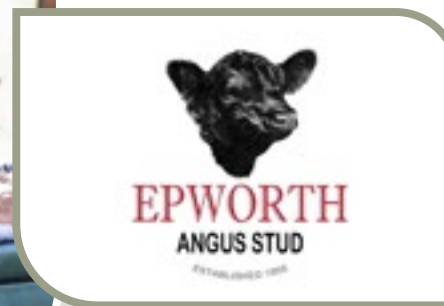

We are proud to offer a great string of bulls and females in this years sale! We believe that the money you spend on our genetics is a great investment in your herds future. The string of bulls has been developed

for longevity in the South African environment with feed conversion and carcass quality being a top priority.

We invite you to view the cattle anytime between now and the sale day. The cattle will also be available to be viewed at Netherwood Farm on the 3rd August, and on sale day.

We look forward to hosting you the 4th August.

*Best Regards  
Rob Kleinloog & Colin Emanuel*

**20** THANK YOU  
**19** FOR YOUR  
SUPPORT

## HEALTH

All cattle are certified FREE of TB, CA and BVD. All bulls have been blooded for AFRICAN, ASIATIC REDWATER & GALLSICKNESS at weaning.

All bulls have been sheath washed and fertility tested for Trichomonosis and Vibriosis. All animals are inoculated for Anthrax, Botulism, Black Quarter, Lumpyskin (all with a booster shot). Multimin and Vit ADE. Pregnant animals have been certified in calf. All stud cattle are inspected and approved by Angus Breed Society.

## ACCOMMODATION

NB!!! Please make reservations by phoning

TAYLOR

(c) 072 355 2770

(e) farm@netherwood.co.za

Sellers offer free accommodation at Netherwood Farm (Lodge and Cottages) on a first come first serve basis. A detailed description can be found on the website: [www.netherwood.co.za](http://www.netherwood.co.za)

## DIRECTIONS

NETHERWOOD FARM - NOTTINGHAM ROAD, 3280

From Johannesburg - Take the N3 to Durban (± 480km). Take exit 132 / Nottingham Road / R103 turnoff. Turn right at stop street towards Nottingham Road. Drive for ±2.5km until you see signs for Netherwood and Blueberry Cafe on your left. From Durban - Take the N3 to Johannesburg Take exit 132/ Nottingham Road / R103

## EPWORTH ENCHANT 18D

A beautiful Renown daughter. She was a result of a flushing we did on her Dam Epworth Enchant 11I. He dam flushes extremely well and she has four progeny on the sale. Two bulls and two heifers. She is a complete female with great structure, bone and width and shows some of SAV Renowns frame size and capacity. She is an early maturing heifer with a lot of potential showing great ADG and Milk figures.

## NETHERWOOD FINALITY

This heifer is in calf to Haycow Cutting Edge and will calve down before the sale date. Cutting Edge will bring a complete outcross set of genetics to the herd. We are happy with the udder quality that this heifer's dam is producing throughout her female progeny.

Netherwood Finality's dam was purchased from Roechama Angus Stud at the Angus Alliance Sale in 2016 who weaned 6 successful calves. Finality is moderate in her frame, is soft sided with a dark red colour.

## NETHERWOOD CELEBRITY

This is one of the most exciting females for the sale this year. This heifer will follow her strong Netherwood maternal bloodlines and breed phenomenal progeny to support any seed stock buyer. Once again, we'd like to make Red Waf Cachafaz genetics available to the market.

Netherwood Celebrity is in calf to Epworth Rebound, a black bull used to introduce black genetics into the Netherwood Stud herd. One of the favourites about this heifer is her dark cherry red colouring, which she got from her dam. Her dam bred exceptionally well in our herd after weaning 7 calves at an ICP of 396 days. Her maternal brother, Netherwood Badass, also sells on sale.

## NETHERWOOD VITALITY

Our only daughter on sale sired by a bull bought from Martiens le Roux at Victorio Stud. This bull produced a well-performing string of offspring. Special note needs to be taken is her milk figure, 11.3. She is athletic, easy fleshing, great spring of rib with a solid pack of EBV's.

Vitality is in calf to a black bull, Epworth Rebound, that we bought from Epworth last year and he is also available for sale again this year offering his outstanding genetics to any cattlemen that wish to continue his excellence.

## NETHERWOOD CONQUEROR

Netherwood Conqueror represents something good for all Palermo sons and grandsons on sale. He is super thick and wide-based. Strong hind quarters and huge rib eye area is something to look at. Fox Trot is a replica of his sire's image. He is excellently put together all round. His mother is an ideal, Mulberry daughter, Angus cow with an udder that would be hard to fault. She has an excellent ICP of 345 days off 4 calves. Sire, Netherwood Commando, was a bull that was taken to the Royal Show in 2017, well-liked by all at the RAS. Netherwood Commando was a top selling bull at our 5th Angus Elite Sale, to Thina Moodley in 2017.

## NETHERWOOD VIP

As his name suggests, VIP, is a top-class bull in the sale string. This bull can be a choice for the heifer or the cow herd; you will want to hold the daughters back for your replacement group. This bull will pack on kg's on the weaner crop with his high-end growth predictions. VIP's sire, Red Waf Cachafaz, has developed a strong following in many programs demanding high performance. Now is the great opportunity to obtain the Argentinian genetics, as the sire is now dead for a few years in Argentina. VIP offers extreme growth better than average in his foot design and consistent EPD's and indices. His milk EBV, 8.5, is in the top 10% of our herd EBV records for milk

## NETHERWOOD FAT CAT

This is one of the top bulls on sale this year, which would be a credit to any stud or commercial herd. He is a Brown Redemption grandson (6 sons and grandsons on sale) out of a Red Badlands Capacity daughter. This bull is very correct bull with exceptional length and width over the shoulder and back, a masculine head and eye banks. He has a good top-line, depth and capacity. Netherwood Fat Cat is a bull with quality, short on the leg and carrying a lot of weight. We are exceptionally pleased with Brown Redemption daughters, with their beautiful udder conformation and they are breeding exceptionally well with their calves and the future is looking promising with these genetics.

## NETHERWOOD RED

Another outstanding son of Brown Redemption with many progeny retained in the herd. Netherwood Red is out of a very beautiful cow who produced excellent progeny in our embryo program. We are very excited to see the future calves being introduced into the upcoming sales and stud herd. There is history that will breed quality progeny with milk, fertility and growth traits, something which can never be ignored striving for herd improvement. Everything that one can look for in a bull is all approved in the books with excellent figures and a stable record of consistency. This is one of the top bulls on offer in the sale string this year. He has a very strong broad head, indicating his width over the back and shoulders, his depth, width and capacity being a strong point. There is a lot to like about this quality bull.

## NETHERWOOD ICON

Netherwood Icon is a very robust looking bull with width, flesh and capacity. He is a son of Red Waf Cachafaz, whose genetics are very hard to come by, since the death of Cachafaz in Argentina. Icon is definitely one of our feature power bulls. Icon has very correct conformation, excellent depth and capacity with a good sheath and is attractive all round. This bull was one of the embryo calves that was taken out of the Netherwood own bred cows, known for her excellent mothering abilities and majority of her daughters have been retained in the stud herd. Netherwood Icon has a very good EBV with an 8.5 for milk which should not be missed.

## NETHERWOOD DEFEAT

This is one of the power feature bulls with exceptional qualities. He is very correct with little faults, exceptional balance, easy fleshing and depth, width, length and capacity is what any breeder seeks. His dark, quality coat, good bone and hooves, broad head and strong muzzle, straight well-formed testes, tight sheath are all pleasing to the eye. As it says, this impressive young bull speaks entirely for himself. He is a square block! These traits will no doubt be passed onto his offspring. Son of Red Northline Rockstar and Defeat sets an excellent example for all Rockstar sons on sale. Netherwood Defeat was the favourite embryo calf right from birth to weaning, always catches your eye when looking at the group of calves in the pasture. Great prospect for any herd.

## EPWORTH RUPTURE

A powerfully built bull with exceptional numbers for growth and feed conversion. He is a cracker and has a twin brother selling from the same combination. (18-221) The breeding combination of Epworth Enchant and SAV Resource has produced exactly what we planned for this combination.

Medium framed bulls with depth, balance and phenotypically sound supported by good feed conversion and milk. I personally like him a lot and believe he will do well in any herd.

## NETHERWOOD WINNER

Have a look at the figures of this bull, all of which range in the top 5% of the sale crop, hence his name Netherwood Winner. This bull is very well liked by Lynn Oldfield, who identified him as a potential top performer. He has an impeccable dam line, where both his dam and grand dam weaned 8 and 10 calves consecutively, including an abundance of milk, fertility and longevity. His dam (ICP 359 after 8 calves) is a daughter of a prominent herd sire JE02-68, who has bred quite a few top producing progeny in the herd. Light at birth but weighing up great at weaning and keeping the EBV indices consistent.

## NETHERWOOD RICHER

Netherwood Richer is out of an ideal Angus cow with an udder that is one of the favourites in the herd. Richer's dam has the incredible ICP of 366 days after 4 calves and is long-spined, attractive cow that has hit her prime in our herd. Grandsire, Netherwood Jacmars Toy, has contributed very well into the herd with excellent hind quarter, body length (as long as a train) and strong bone. Jacmars Toy was bought by Sid Knott Angus in Eastern Cape and only heard positive impressions about his progeny. Richer has lots of length and muscling and he performed well with his mates. He topped the top 10% of the Phase D Performance Test. Weaning at 273 kgs and achieving a 130 ADG index. Check out his EBDs.

## NETHERWOOD BADASS

As his name suggests, this bull stands out as an exception to his group, always standing proud with attitude. Netherwood Badass is one of the few darkest Palermo sons out of a fantastic cow line. Dam, with ICP of 396 days after 7 calves, has weaned some promising weaners in her lifetime. Palermo has extremely high retention rate with his offspring, breeding sound conformation, very few faults and strong topline. This bull sells with his maternal sister, Netherwood Celebrity. This red cherry, shaggy, bull with eye appeal has width and consistency. One of our calving ease bulls with a 0.57 BW EBV, he is sure to get the job done out in the pastures.

## NETHERWOOD DIVIDEND

One thing we can say about this bull is that the photo does not do him justice! His capacity, depth and extreme length and width has to be seen. He has a very strong top line, broad and flat over the shoulders with a table top back. He fleshes down well into the hindquarter and broad at the pin bones. Netherwood Dividend's genetic profile is one of the first to be available on the Angus Elite Sales. Calidad's sire, Brigadier, was a bull seen by us at the World Angus Forum in Argentina in 2011. This La Pastoriza bull has exceptional length width and strong bones and made a significant difference to the industry. Calidad was purchased as an embryo by Towaw stud in Canada and the genetics found its way into SA. Dividend's dam has bred extremely well in the Netherwood herd with numerous sons and daughters that have been retained into the herd.

## NETHERWOOD BIG DEAL

The name says it all!  
This is one of our lengthy bulls with good colouring and strong for a well put together bull with a good top line. Big Deal offers calving ease and very good all-rounder with correct conformation and has very good expected breeding values. His dam (still in the herd) has as much quality as any cow in the herd. She is moderately made with a great udder and productive traits. Longevity is guaranteed after weaning 8 healthy calves successfully and keeping a low inter-calving period of 379 days. Netherwood Big Deal was a heavy weaner at 269 kgs and is good on wean direct, 120 index and continued to be above average in the Phase D on the farm Test, ADG 113.

## NETHERWOOD MULTIMILLIONAIRE

This is a Brown Redemption son who has a lot going for him with excellent forequarter, depth and ideal masculine traits in the head and hump. Multimillionaire is an ideal bull for weaner production, with him having a weaning index of 119, a bull with an enormous amount of growth potential at an ADG index of 115. This bull has an extremely good dam line with milk, fertility and longevity, making our choice for her selection in the embryo program easier. His dam, which is a beautiful feminine cow with high retention for bulls and heifers and is still in the herd with an ICP of 328 days after 6 calves. Netherwood pays a lot of attention to longevity and fertility as these cows tend to be the most productive and economical.

## NETHERWOOD CHAMPION

We could write a book about the influence Brown Redemption has had in our breeding program. Redemption produced a solid group of sons and daughters. We are looking forward to his full sister that will be mated this coming season. Champion was one of the favourites at weaning as well as in the growth test, finishing off with an average daily gain (ADG) index of 117. His dam, Netherwood RK090040, is a very productive fertile cow and calves early and weans a good calf each year. Netherwood Champion had an actual weaning weight of 250 kgs. Netherwood Champion will be sold as a commercial bull due to having a white spot in front of the naval, but will be perfect for any commercial breeder. He is exceptionally long and broad with outstanding selection value.
