General Information

Description

The Autodesk Fusion 360 Level 1 training course instructs students in how to use the Design and Detailing tools in the web Based Fusion 360 software to create Models. In the practice-intensive curriculum, students acquire the knowledge needed to progress from simple sketch creation, to Simple Geometric parts, and finally to making complex Parts.

Learning Objectives

- Explore navigation Tools in Fusion 360
- See how to Create a new file, and unit setup
- Create sketches, Utilize Constraints and Parameters
- Use Creation Tools; Extrude, Revolve, Sweep, and Loft
- Add Holes, Fillets and Chamfers
- Explore additional Editing Tools to make complex parts

Prerequisites

No Prerequisites, but working Knowledge of AutoCAD Helps
