General Information

Description

The Autodesk Fusion 360 Level 2 training course instructs students in how to use the Design and Detailing tools in the Web Based Fusion 360 software to make Assemblies, Animations (presentation files), and 2D Documentation. In the practice-intensive curriculum, students acquire the knowledge needed to make Assembly Files, Detail 2D drawings, and finally create Videos and Exploded views from the Animations.

Learning Objectives

- Learn how to Insert multiple parts
- Explore how to Extract parts from Multiple Solids
- Learn how to constraint the parts in the assembly
- Author Creative Videos and Exploded Views
- Create 2D Drawings for Parts, Assemblies and Animations

Prerequisites

Fusion 360 Level 1, or working Knowledge of Fusion 360, part creation
