## NOTES

Bicknell's Thrush has not yet been reviewed by the MD/DC Records Committee for addition to the official list, but specimens for DC exist in museum collections.

The list of species conforms to the *Official List of the Birds of the District of Columbia*, version of 9 October 2019, compiled by the MD/DC Records Committee of the Maryland Ornithological Society (MOS). For further information on temporal, spatial, and abundance information not possible in a field card of this nature, refer to the MOS-sponsored publication *Birds of Maryland, Delaware, and the District of Columbia,* by B.M. Beehler; photos by M. Evans; R.F. Ringer, Technical Editor; Johns Hopkins University Press, Baltimore, 2019.

This list includes 339 species observed in DC. Not included on this field card are species which are now extinct or extirpated, of questionable or exotic origin, or still under consideration by the MD/DC Records Committee. Species ordering and names conform to the American Ornithological Society Checklist of North and Middle American Birds, 7th Edition, 60th Supplement, 2019 (http://checklist.aou.org/taxa).

Documentation is requested by the MD/DC Records Committee for observations of species marked with an asterisk (\*) or for sightings of species that do not occur on this list. An online form for reporting rare or out-of-range birds is available at <a href="https://mdbirds.org/records-committee/">https://mdbirds.org/records-committee/</a>.

The Maryland Ornithological Society is a nonprofit, statewide organization founded in 1945 to promote the study, enjoyment, and conservation of birds in Maryland. For information about becoming a member, visit the MOS website at
